COMVEX TERMINAL

TWO BUSINESS LINES: MINERALS AND GRAIN

COMVEX MINERAL TERMINAL

COMVEX terminal is the leading specialist on the market in handling, storing and transshipment of bulk minerals such as iron ore, coal, coke, etc, operating from a modern and fully equipped facility located in the Port of Corunna.

Handling equipment:
 - average load capacity of 2.000 tons
 - terminal - loading capacity of 1.500 tons

COMVEX GRAIN TERMINAL

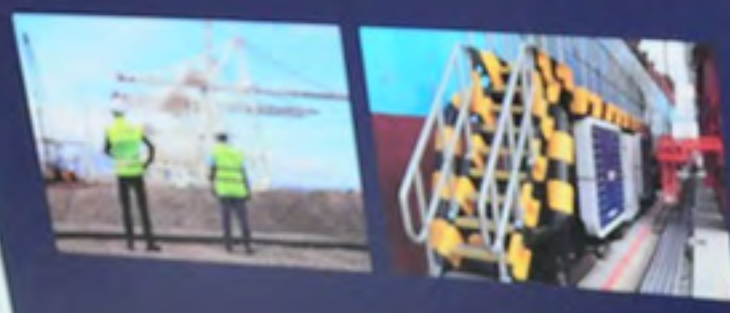

It is the fastest port terminal in Europe

The terminal operates in a dock with a total length of 400 m and it has unloading rates of up to 72,000 tons per day.

Grains are unloaded from ships, stored in silos and loaded onto ships. The unloading capacity is 1.500 tons per hour and the loading capacity is 1.000 tons per hour.
