...e-chainsystems® ...e-chains® ...readychain® ...chainflex® cables for...

igus® e-chainsystems®

What are the **igus®** benefits for crane and heavy duty applications?

igus® mobile cable systems for cranes

What can igus® do better?

Motor reel

Cable tender

Festoon

BusBar-Systems

igus® mobile cable systems for cranes

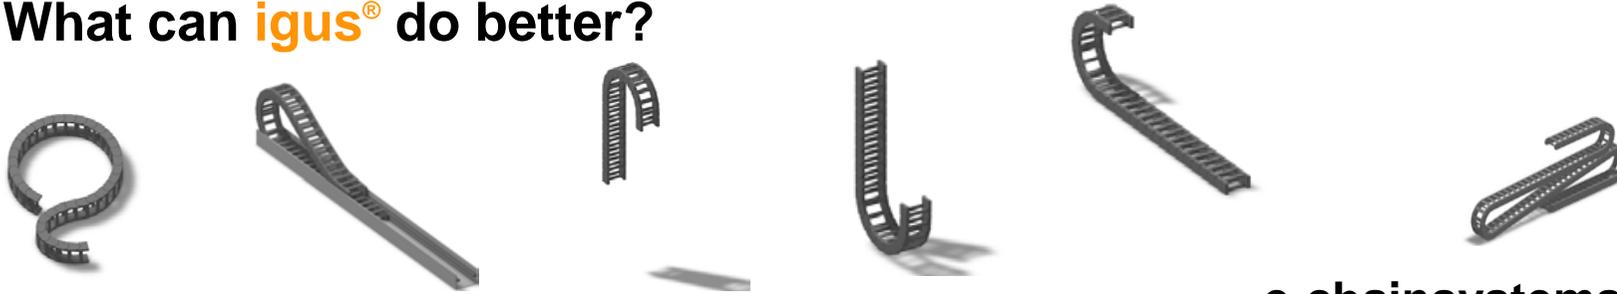

What can igus® do better?

igus® replaces those “old fashioned“ systems into ...

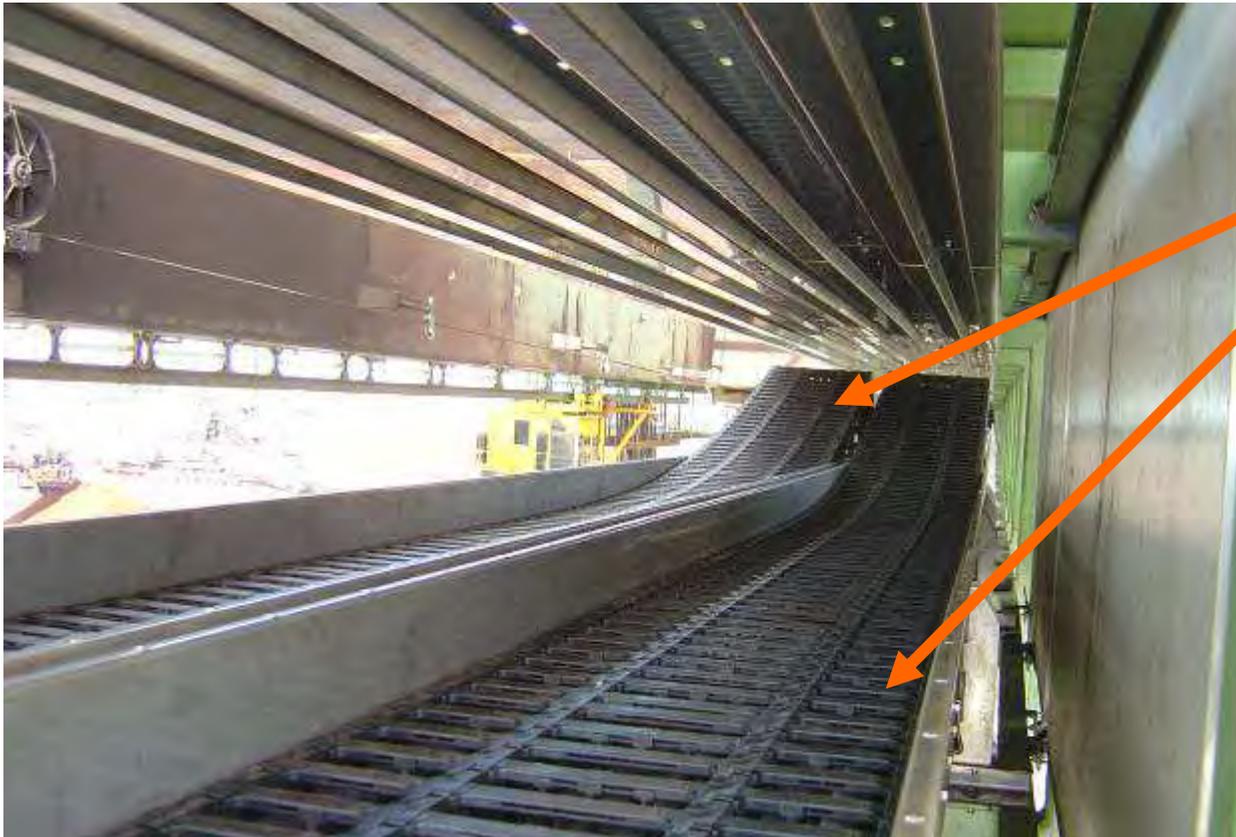

igus® mobile cable systems for cranes

What can igus® do better?

... into a modern turnkey **e-chainsystem®**

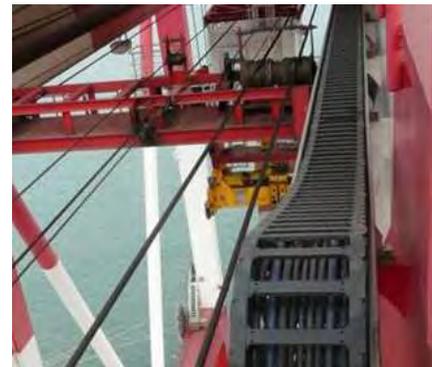

e-chainsystems®
completely delivered
with chainflex® cables
(readychain® system)

...e-chainsystems® ...e-chains® ...readychain® ...chainflex® cables for...

igus® e-chainsystems®

Benefits for machinery builder and end user

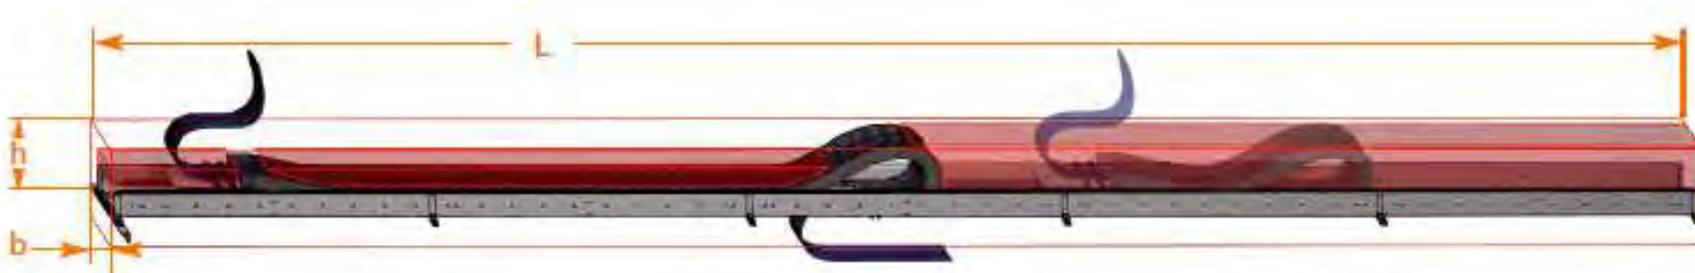

igus[®] - e-chain benefits for crane builder & end user

- ▶ Space saving design
- ▶ No cable loop station & no additional steel structure for loop station

Required installation space for e-chainsystem[®] $h = \text{approx. } 800 \text{ mm}$

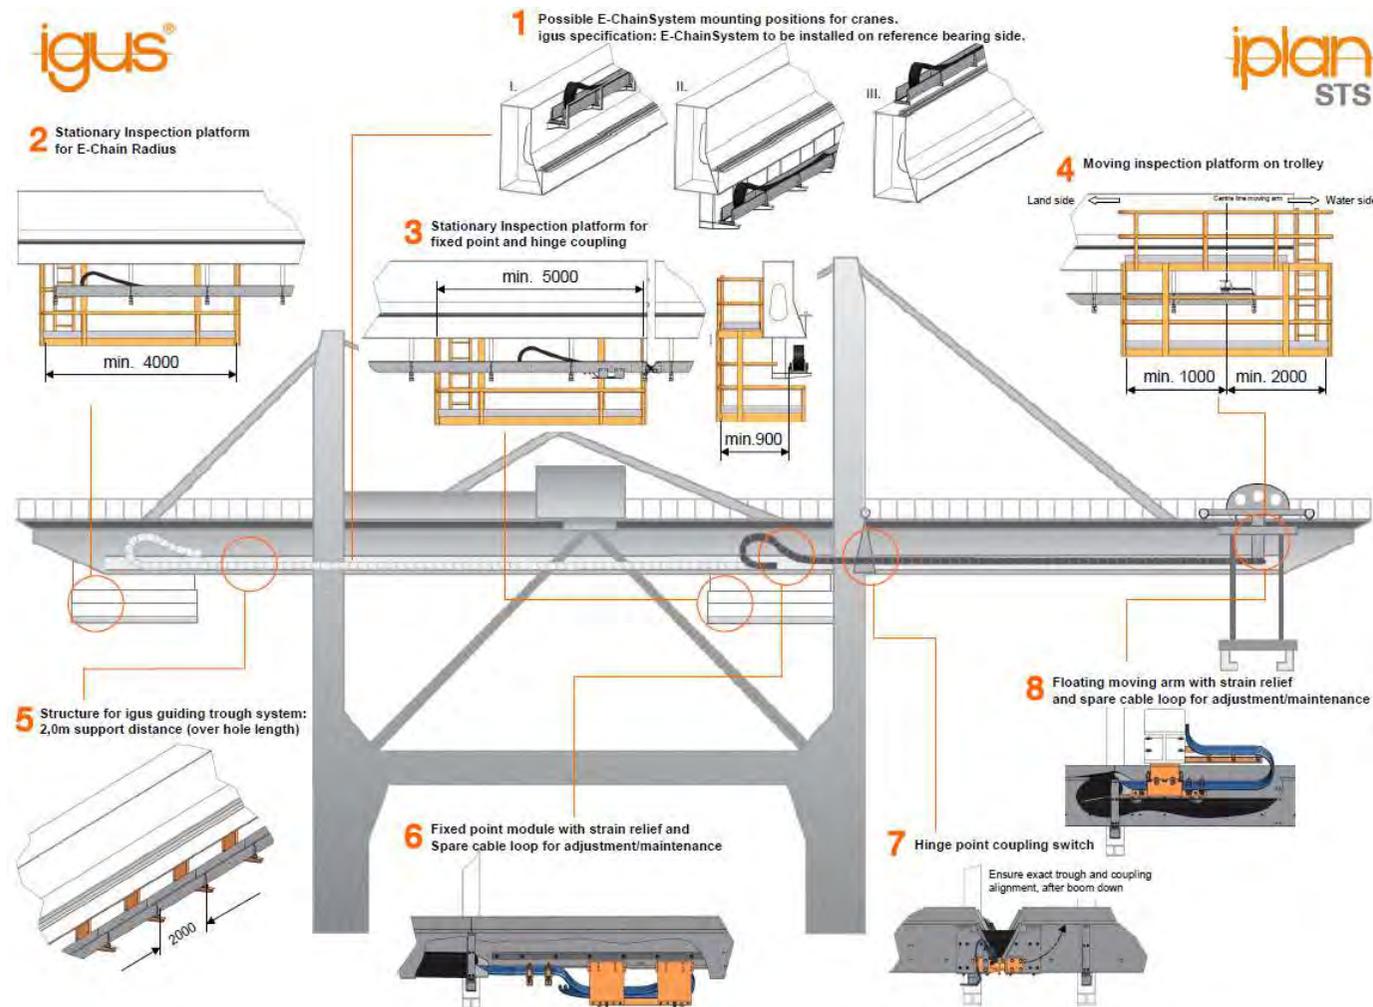

igus[®] - e-chain benefits for crane builder & end user

- ▶ No additional drives or control system necessary to move the chain system
- ▶ Synchronous run of trolley and e-chainsystem[®]
- ▶ All kind of media (power, data, hydraulics, pneumatics, ...) can be conveyed in one system
- ▶ Quick an easy installation of additional cables or hoses
- ▶ igus[®] field service (inspection, installation, supervisor service)

igus® - e-chain benefits for crane builder & end user

- ▶ Low maintenance extravagance will reduce the crane downtimes
- ▶ Wind an weather resistant system
- ▶ Spare part guarantee for 10 years and more

igus® - e-chain technical limits

- ▶ Speed up to 600m/min

The fastest crane with igus® e-chain® is running at 300m/min

- ▶ Acceleration up to 10m/s²

- ▶ Travel length up to 900m

The longest crane application running with igus® e-chain® is 500 m long (STS, Port of Singapore, since 2002)

The longest igus® e-chain® application is 615m

- ▶ No limit to cable load

- ▶ Possible to use hydraulic-, pneumatic- and water hoses

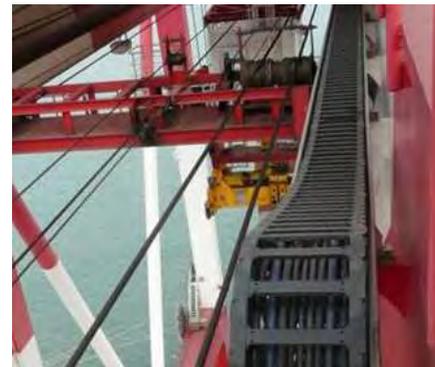

- ▶ Possible to use 6/10kV power-cables

...e-chainsystems® ...e-chains® ...readychain® ...chainflex® cables for...

igus® e-chainsystems®

Crane components & services

igus® - Crane components & services

e-chain® series E4/4

- ▶ Rugged stop dog design
- ▶ Outer link with rear catch for high stability
- ▶ High torsion rigidity
- ▶ Wide, cable friendly plastic crossbars
- ▶ Large interior separation kit

Successfully used in various port applications since 1995!

igus® - Crane components & services

rol-e-chain® series E4/4

- ▶ Rolling instead of gliding – major reduction in driving power
- ▶ Rollers with stainless steel roller bearings as standard
- ▶ Consistent rolling resistance for applications in dirty environments
- ▶ Various roller types for optimum application adaption

Successfully used in various port applications since 1999!

igus® - Crane components & services

Heavy Duty rol-e-chain® Series

- ▶ Larger pin / bore connection surface (Y)
- ▶ Enlarged gliding surface, less wear (X)
- ▶ Widened stop dog surface
- ▶ High tensile stability
- ▶ Robust steel mounting brackets

Successfully used in various port applications since 2004!

5050HD compared to classic 5050 series:
Y: +120 %, X: +7,5 mm

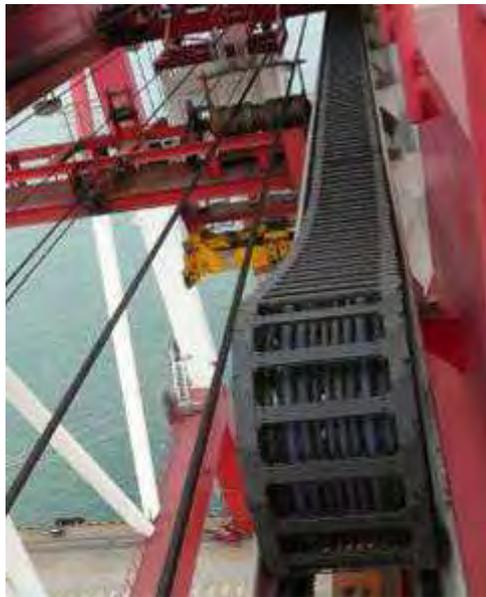

4040HD compared to classic 4040 series:
Y: +140 %, X: +9 mm

igus® - Crane components & services

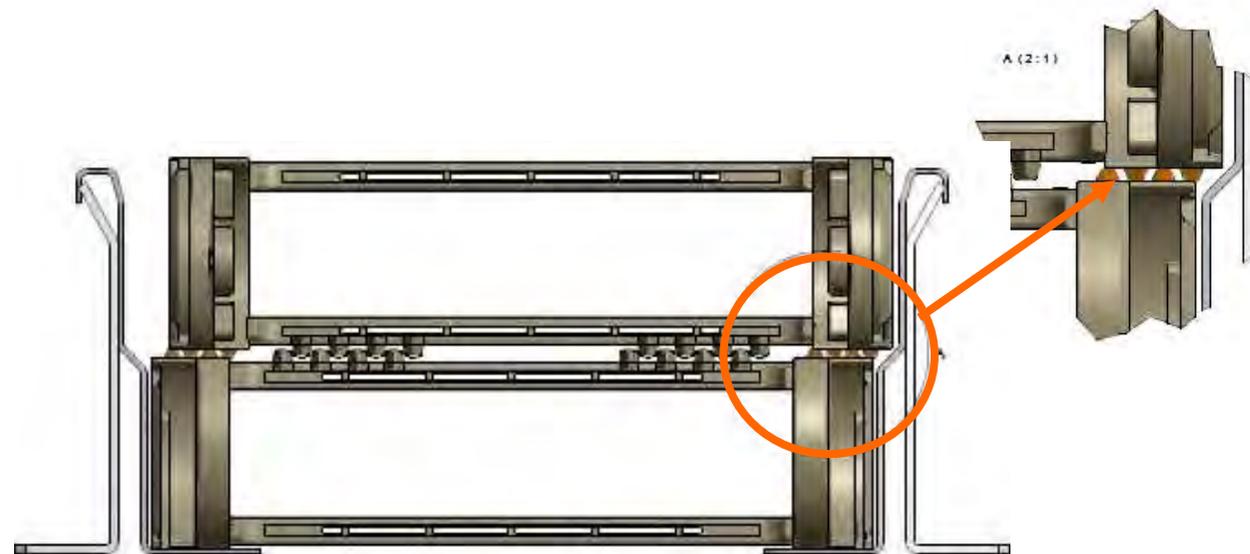

e-chain® series P4

Successfully used in various port applications since 2008!

- ▶ Smooth, low noise operation through identical pitch length for links with and without rollers
- ▶ Integrated grooved roller, running on an even, plain surface
- ▶ Designed for large fill weights and high travel speeds
- ▶ Same material strength as the proven E4/4 Heavy Duty e-chains®

igus® - Crane components & services

Guide trough systems

Steel & Aluminum guide troughs for long travel applications

For heavy applications: heavy duty installation sets, with reinforced brackets and special installation profiles

igus® - Crane components & services

chainflex® cables

Bus Cables

chainflex® bus cables are available for all continuous bus systems within e-chains®

Fibre Optic & Coaxial Cables

Plastic (980/1000) or fibre glass (62.5/125 or 50/125), 1, 2, 6 or 12 fibres (they are all tested for several million cycles)

Control Cables

PVC, PUR, TPE – A wide selection of materials for all applications - shielded and unshielded control cables with various combinations of cores and cross sections.

igus® - Crane components & services

chainflex® cables

Motor & Servo Cables

Shielded servo cables for inverter operation up to 600/1000 V.
Shielded & unshielded motor cables from 1,5 to 95mm²

Single Core Motor Cables

Shielded & unshielded single core motor cables for most demanding requirements.

Single Core CF Crane

Shielded, highly flexible single core for up to 6/10kV.
Medium voltage cable for most demanding requirements in crane building.

igus® - Crane components & services

Test lab

- ▶ 1750m² test area
- ▶ More than 80 e-chain® & chainflex® tests running at a time
- ▶ Simulating real conditions (travels of up to 300m and speeds up to 300m/min)

Climatic tests for all e-chain® & chainflex® cables.
Material tests from - 40°C up to +199°C.

chainflex® cables in life span test. Millions of cycles
guarantee: chainflex® lasts or money back!

igus® - Crane components & services

readychain®

- ▶ The selected igus® chainflex® are inserted in the e-chain®
- ▶ The defined cable projecting lengths are marked and fixed
- ▶ Project-specific cable connections are mounted
- ▶ The complete readychain®-system is delivered on a special wooden drum

igus® - Crane components & services

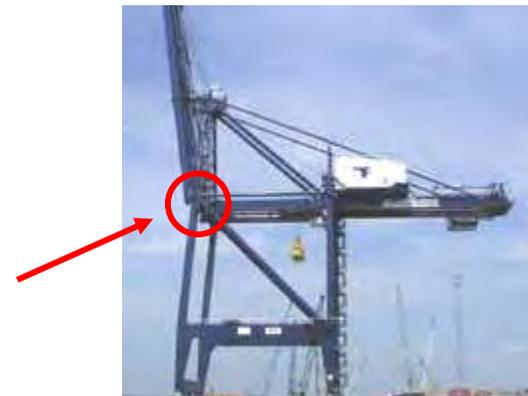

Special part - hinge clutch

Hinge clutch at the hinge point with bolts and holes to get a safe adjustment after bringing down the boom

Hinge clutch at hinge point including limit switch

igus[®] - Crane components & services

Special part

Floating moving arm

igus[®] floating moving arm for compensation of the lateral mismatch

Strain relief

Clamps for safe cable strain relief

igus® - Crane components & services

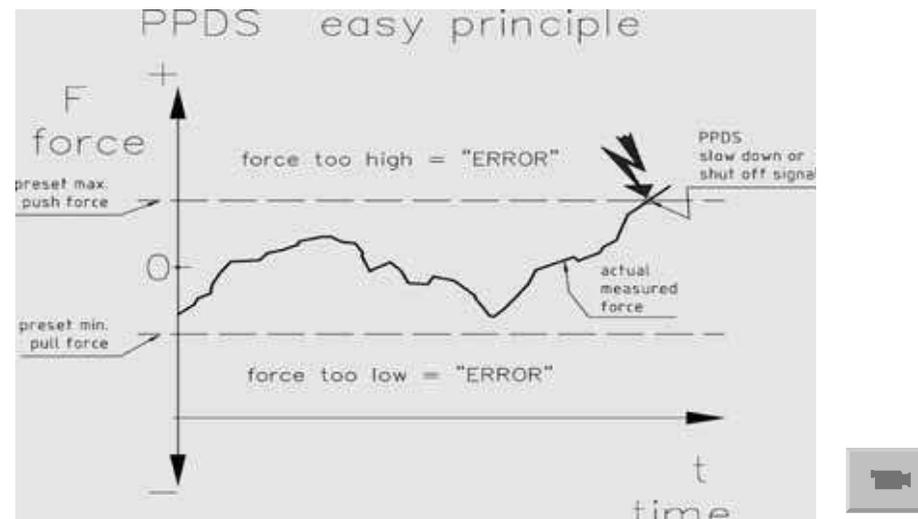

Special part – PPDS (Push Pull Detection System)

- ▶ Prevents down time
- ▶ Prevents damage to equipment (max. force is programmed, system stops when force is exceeded)
- ▶ Saves money
- ▶ Improves operational safety through preventive maintenance & fine tuning of the system

Push-/Pull-force monitoring with the igus® PPDS System

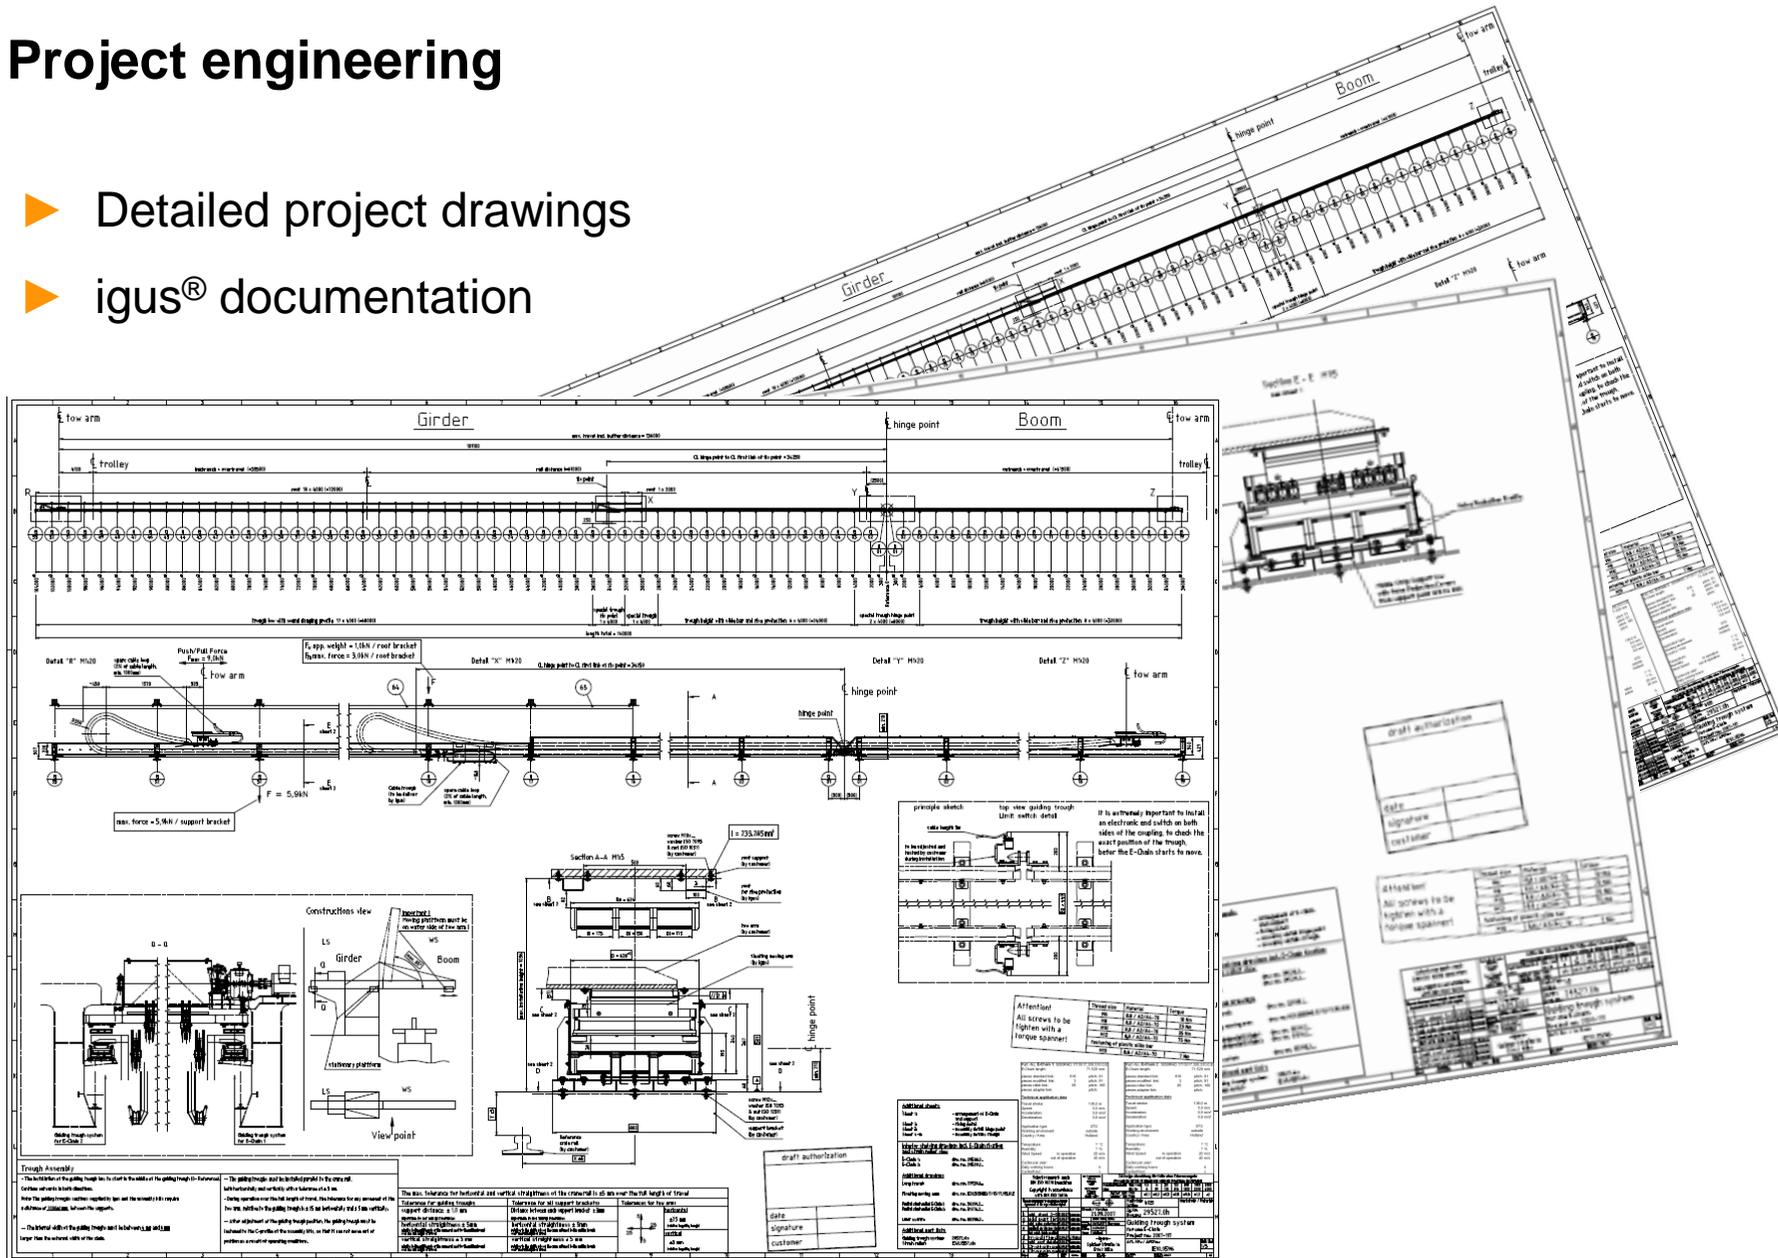

Easy PPDS – continuous real force measurement and limit comparison

igus® - Crane components & services

Project engineering

- ▶ Detailed project drawings
- ▶ igus® documentation

igus[®] - Crane components & services

Special part – e-rover

Main power supply for RTG`s

- ▶ Safe transmission of FOC signals
- ▶ Different fillings and travels up to 900m are possible
- ▶ Saves operating costs of RTG`s
- ▶ Protects the environment

Switch of your diesel engines!!!
