

Mauritius Maritime Week: Integrating Technology and Automation to Drive Productivity Improvements

Buhle Yengwa
Siemens South Africa, Africa

SIEMENS

Electrification

Are you ready for Automation that can lead to Productivity Improvement?

Modernization

AC Masterdrives
6SE70

AC SINAMICS S120
6SL70

DC Masterdrives
6RA70

DC SINAMICS
6RA80

S7 300/400

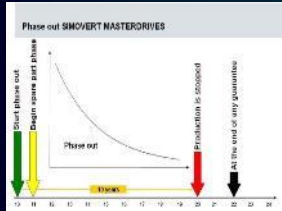

S7 1500

Touch Panel

Simocrane
CMS

SIEMENS

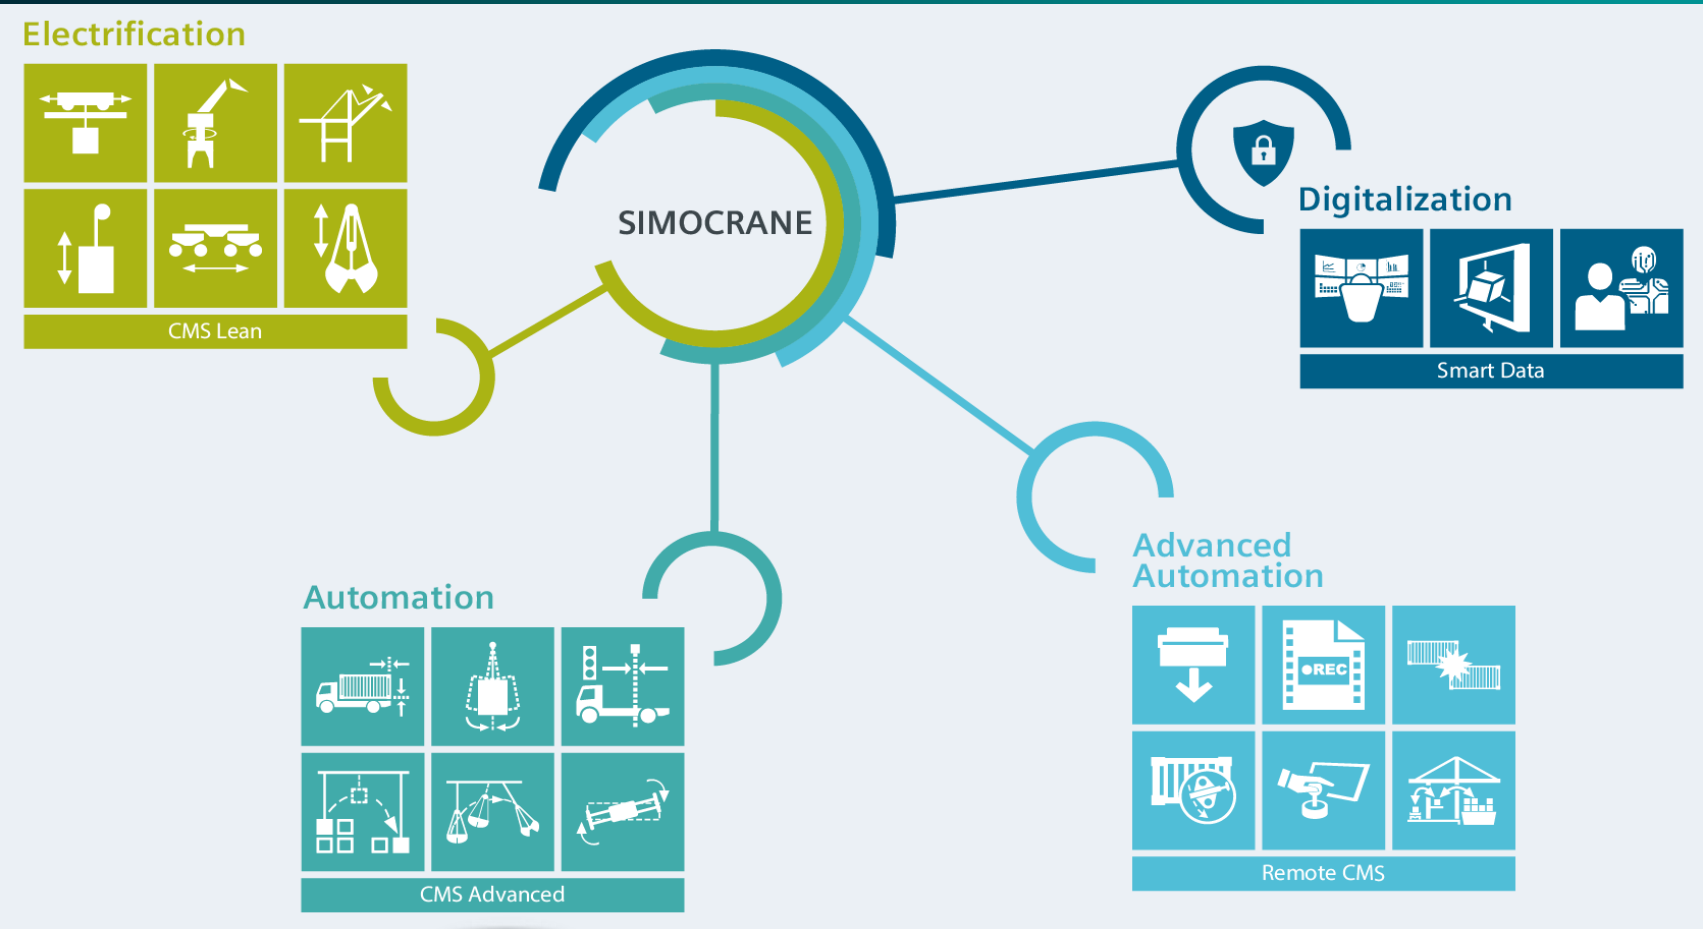

Customization and Productivity Improvements: SIMOCRANE

S7 1500 plc
SINAMICS S120

LCPS

RCMS

RCOS

SIEMENS

Crane Management System (CMS)

Advance Reporting and Data Analysis: CMS

Crane Management System

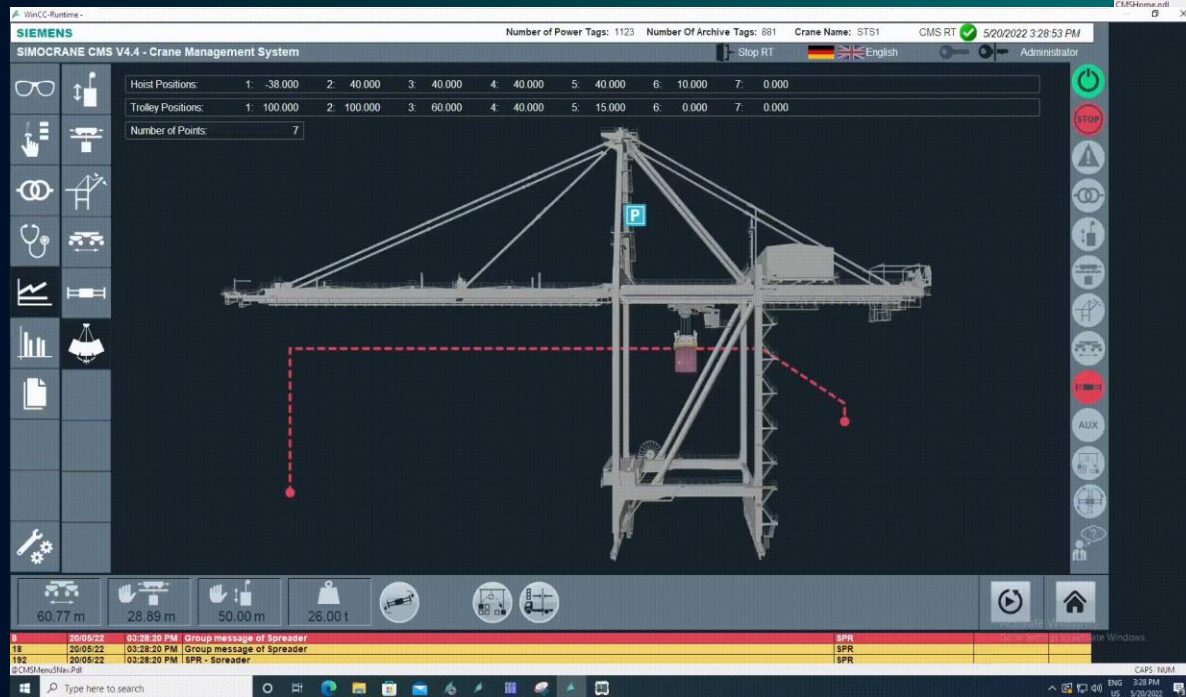

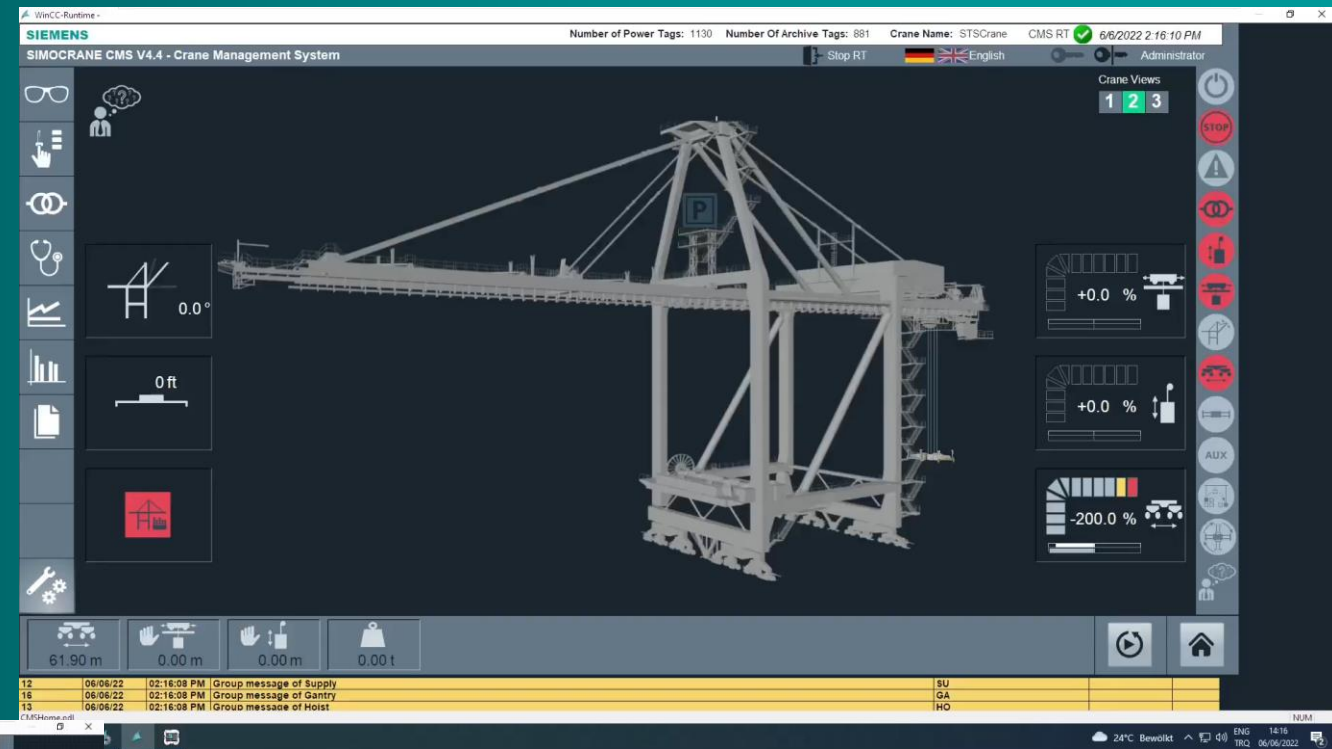

- 3D Models
- Trajectory Curve Screen
- Replay Function

CMS: 3D Models

CMS Crane Screens

- 3D Models
- Trajectory Curve Screen

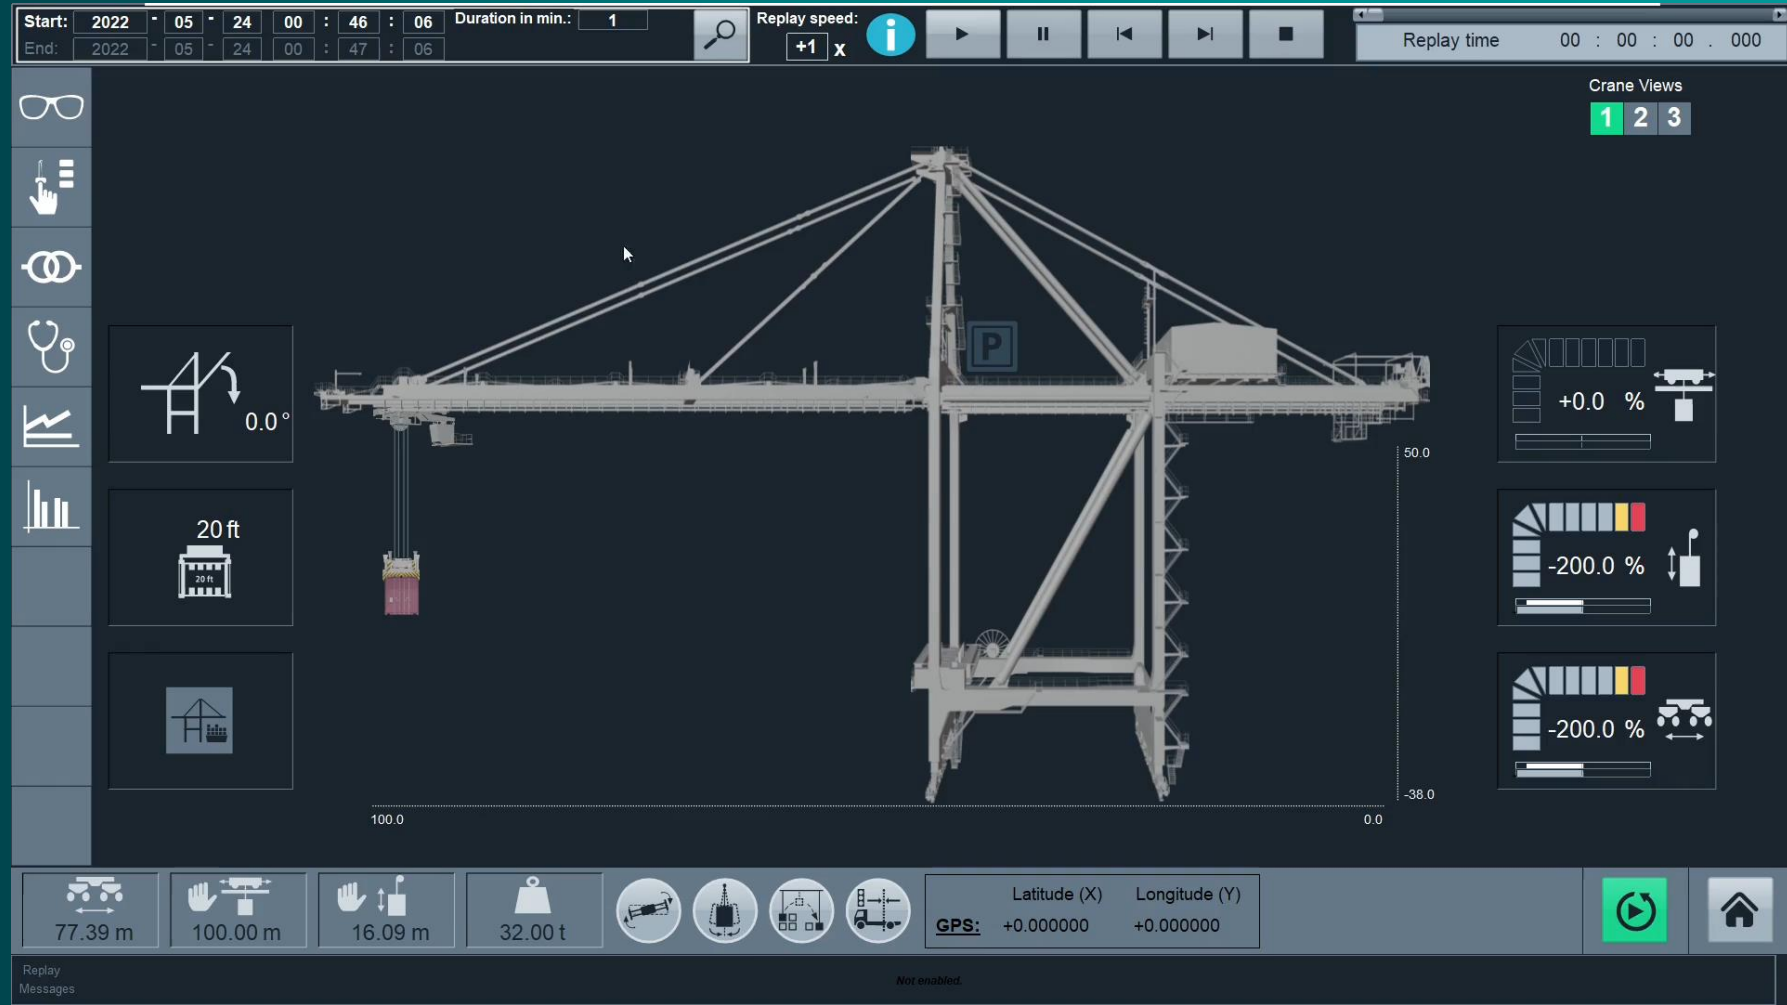

- Crane Indicators
- Status Bar
- Crane Component Operational Mode (Manual/Automatic)

CMS: 3D Models

Replay Function (Playback)

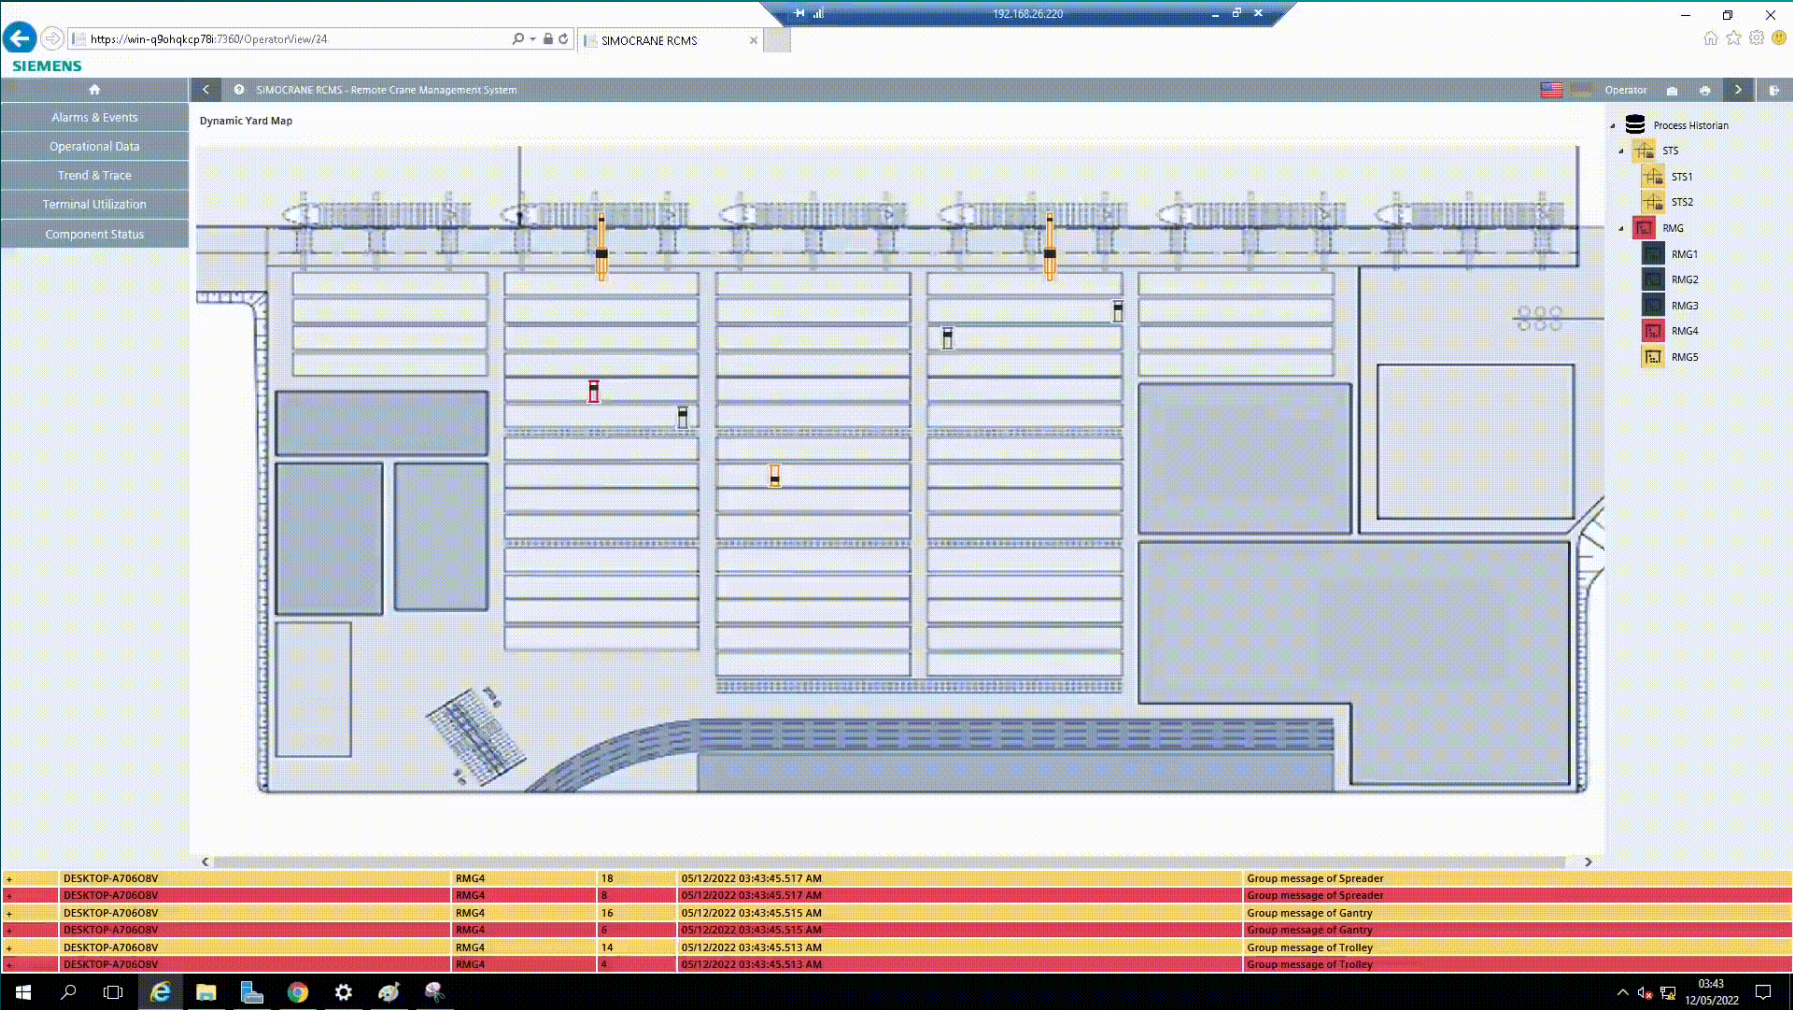

- Investigate crane faults and advance analysis
- Intelligent Replay Controller
- Play & Pause it like a movie
- Replay crane data as often as you want
- Direct connection to archiver (MS SQL)

Remote Crane Management System (RCMS)

Dynamic Yard Map

- Crane Status & Position Monitoring
- Fully Customizable View
- cartographical representation
- Separates Yard Maps View i.e. per terminal sectors

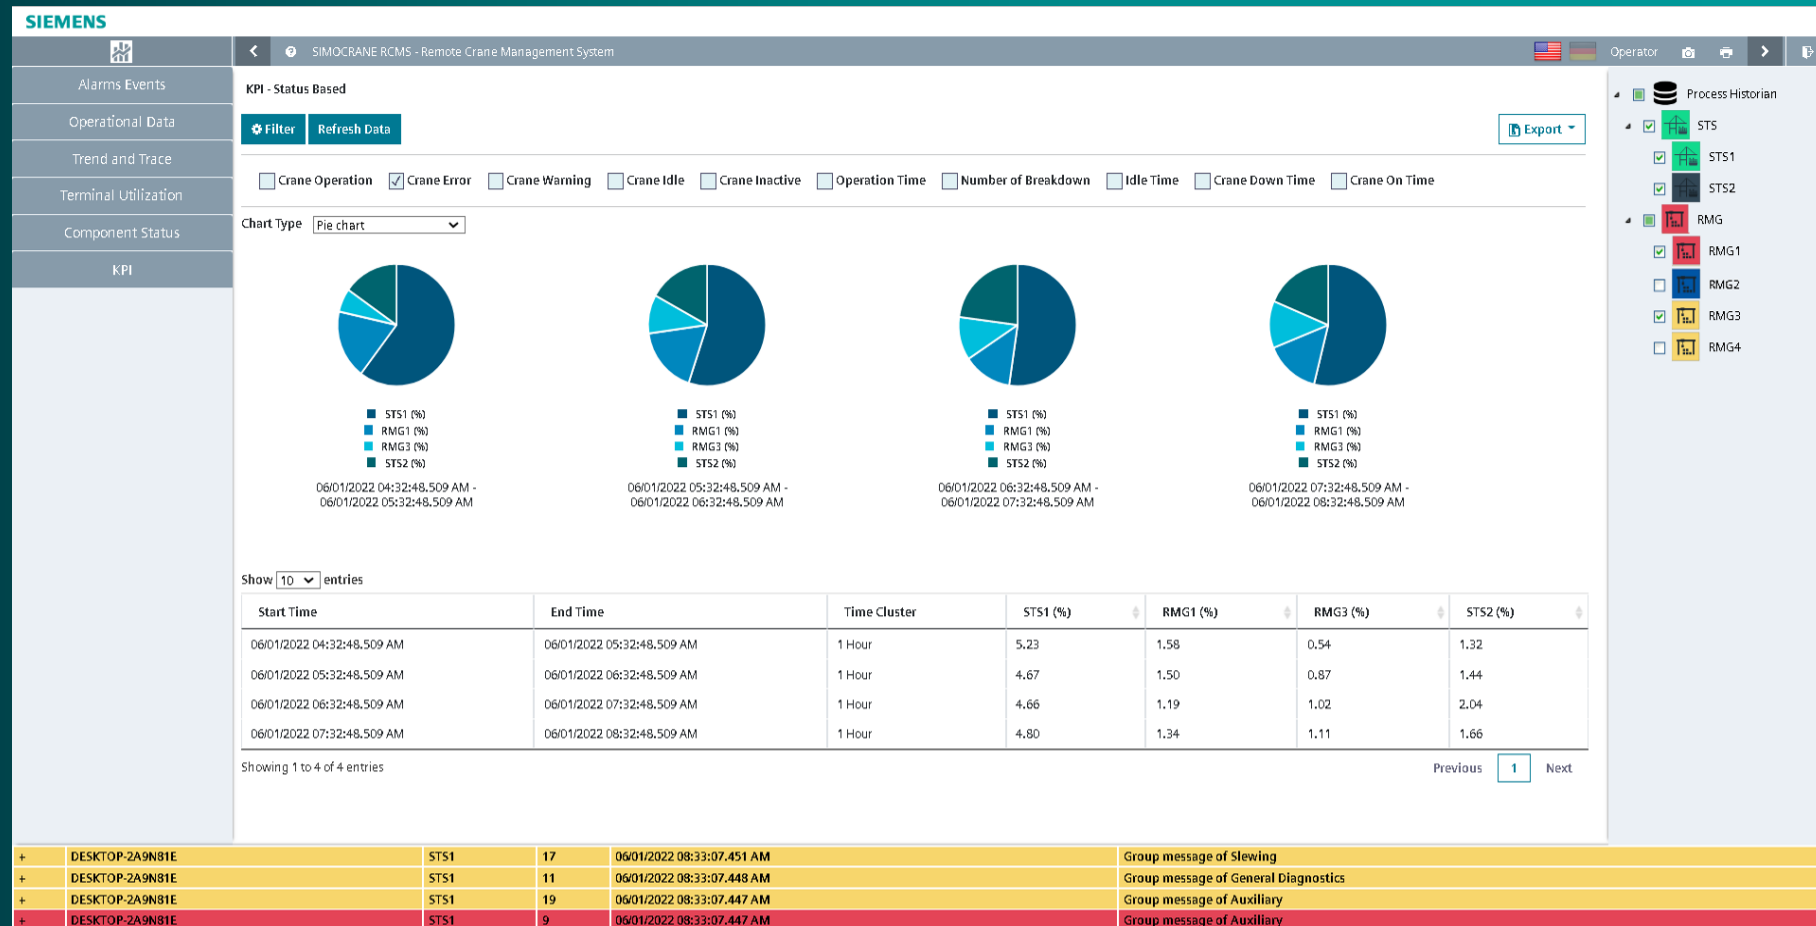

Data Mining & Data Representation: RCMS

KPI Screen

- Crane Comparison
- Operational Data
- Fault Messages
- Breakdown Messages

Important KPI

- MMBF
- Crane Status
- Number of Moves
- Crane Counters, Timers
- Energy Consumption

Remote Crane Operating System (RCOS)

Automation: RCOS

Stress on human body (neck/back)
Difficult to create comfortable environment

Reduced visuals due to increase of ship size
(>70 high, >10m deep, >20.000 containers)

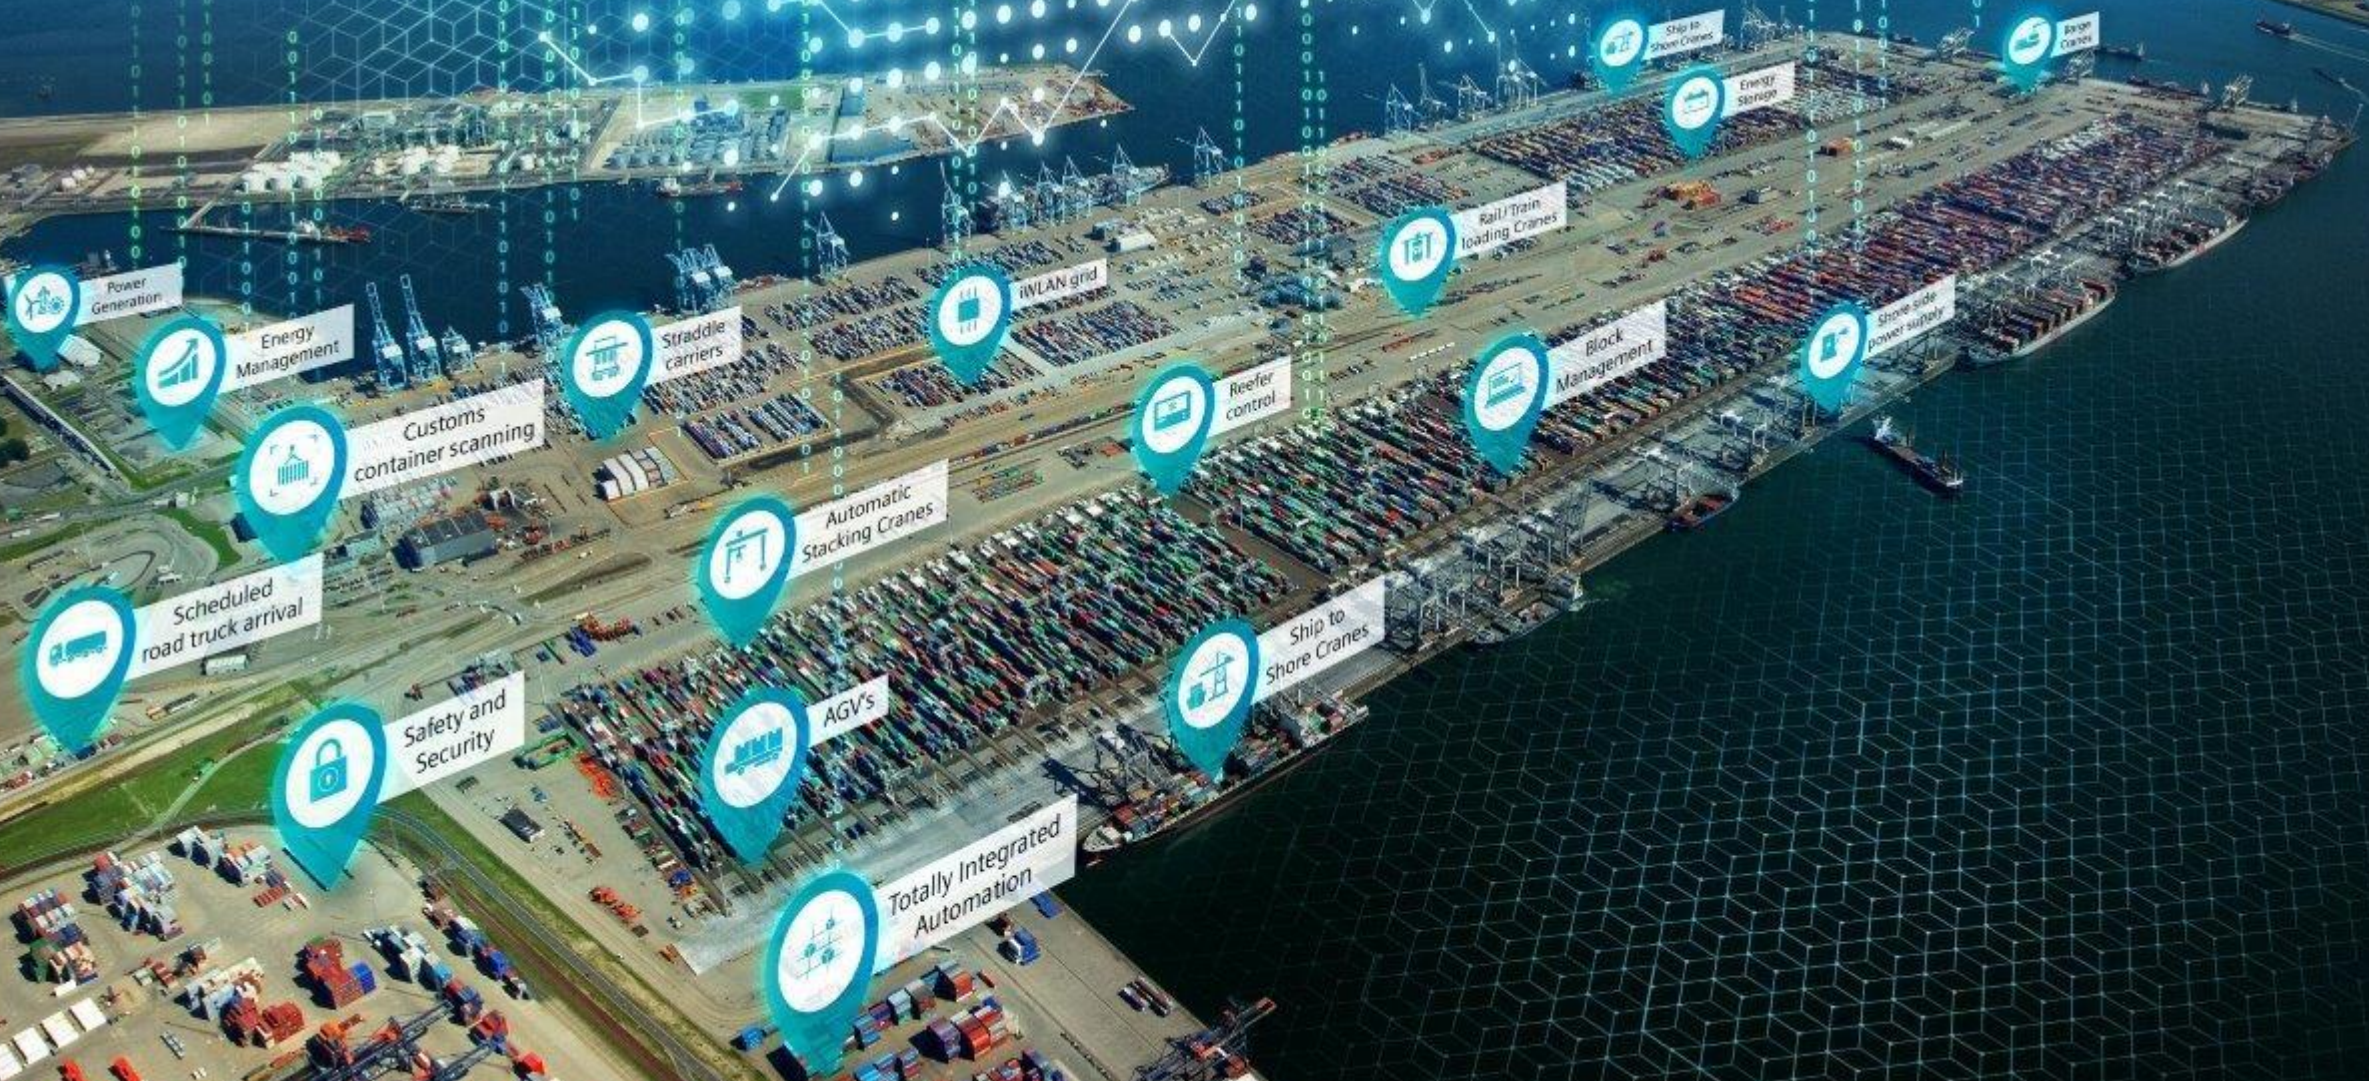

Automatic moves do not require active human
interaction / supervision

Transportation to and from cranes

Smart Port

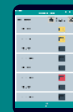

Data Collection

SIMOCRANE
Analyzer

Cloud

SIMOCRANE
Analyzer

SIMOCRANE RCMS

Remote station

- Operation
- Maintenance
- Planning

Remote Control Operating System

Process Historian Central Archive

Single

Redundant (Hot Standby)

| Thank you.....
