

# The voice of Indian Ocean Islands ports

*Sony Payet – PAIOI Chairman*

# PAIOI at a glance

Grouping of 7 ports organizations of IO

Leading and supporting High Added Value projects for port sector

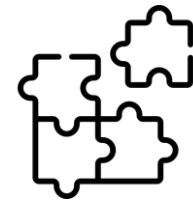

Values : collaboration, cooperation, co-construction

Ecological and energetic transition, a main concern for the future of ports

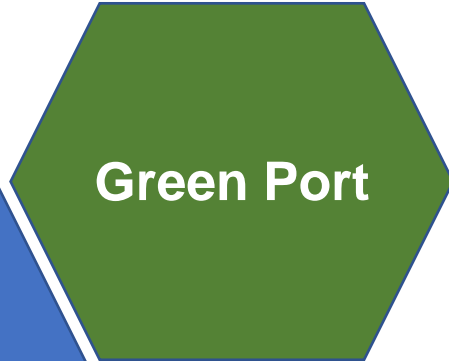

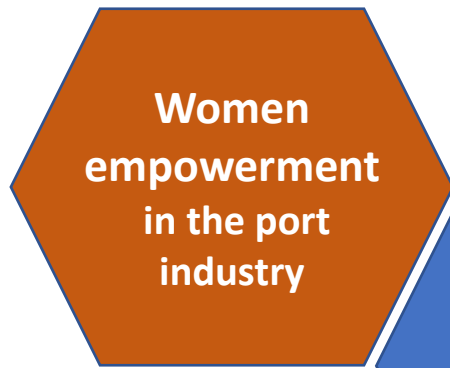

Identify and share sustainable solutions

Subjects interconnection

# Our current projects portfolio In line with our partnership strategy

## Member ports

# Green Port Study

a shared strategic vision  
for PAIOI ports around  
“Green Port” concept:

## Response to climate change :

- Foster insights sharing and streamline technical solutions to protect the coastline of ports

---

## Energy transition :

- Foster the implementation of development of renewables energy generation
- Foster the use of our port facilities to precast (and later on maintain) offshore renewables energy facilities.

---

## Ecological transition :

- Exchanges of best environmental practices
- Focus on the issue of waste collection at ports level
- High interest for sourcing invasive species

---

## City-Port interface :

- High interest for developing cultural Waterfront vicinity of Ports Centers

# Sustainable cruise tourism strategy

a shared strategic vision broken down in three fields
