Brief information about ADY Container LLC

Currently, the total length of railway lines is 2900 km, 802 km of which is double-tracked

80% of railways are electrified

60% of railways equipped with automatic signaling system

ADY Container LLC is a subsidiary company of **Azerbaijan Railways CJSC** providing multimodal logistics services to various industries by rail and sea ways across Azerbaijan.

Our mission is to attain a large share of rail movements for all industries in the **Caspian Sea, Black Sea, Central Asia regions, Europe and Far East.**

- **ADY Container LLC – multimodal freight arm of Azerbaijan Railways – created in 2017 to boost exclusively rail container traffic in and across Azerbaijan**
- **5-fold increase in rail container traffic in Azerbaijan since 2017**
- **ADY Container LLC co-operated regular feeder connectivity ensured between ports of Baku - Aktau and Baku - Turkmenbashi**
- **ADY Container LLC owned container terminals upgraded across Azerbaijan**
- **ADY Container LLC owned and leased container pool considerably increased**
- **Increased rail container transport across Azerbaijan contributed to alleviated road congestion and overall decarbonization process.**

RAILWAY INFRASTRUCTURE PROJECTS

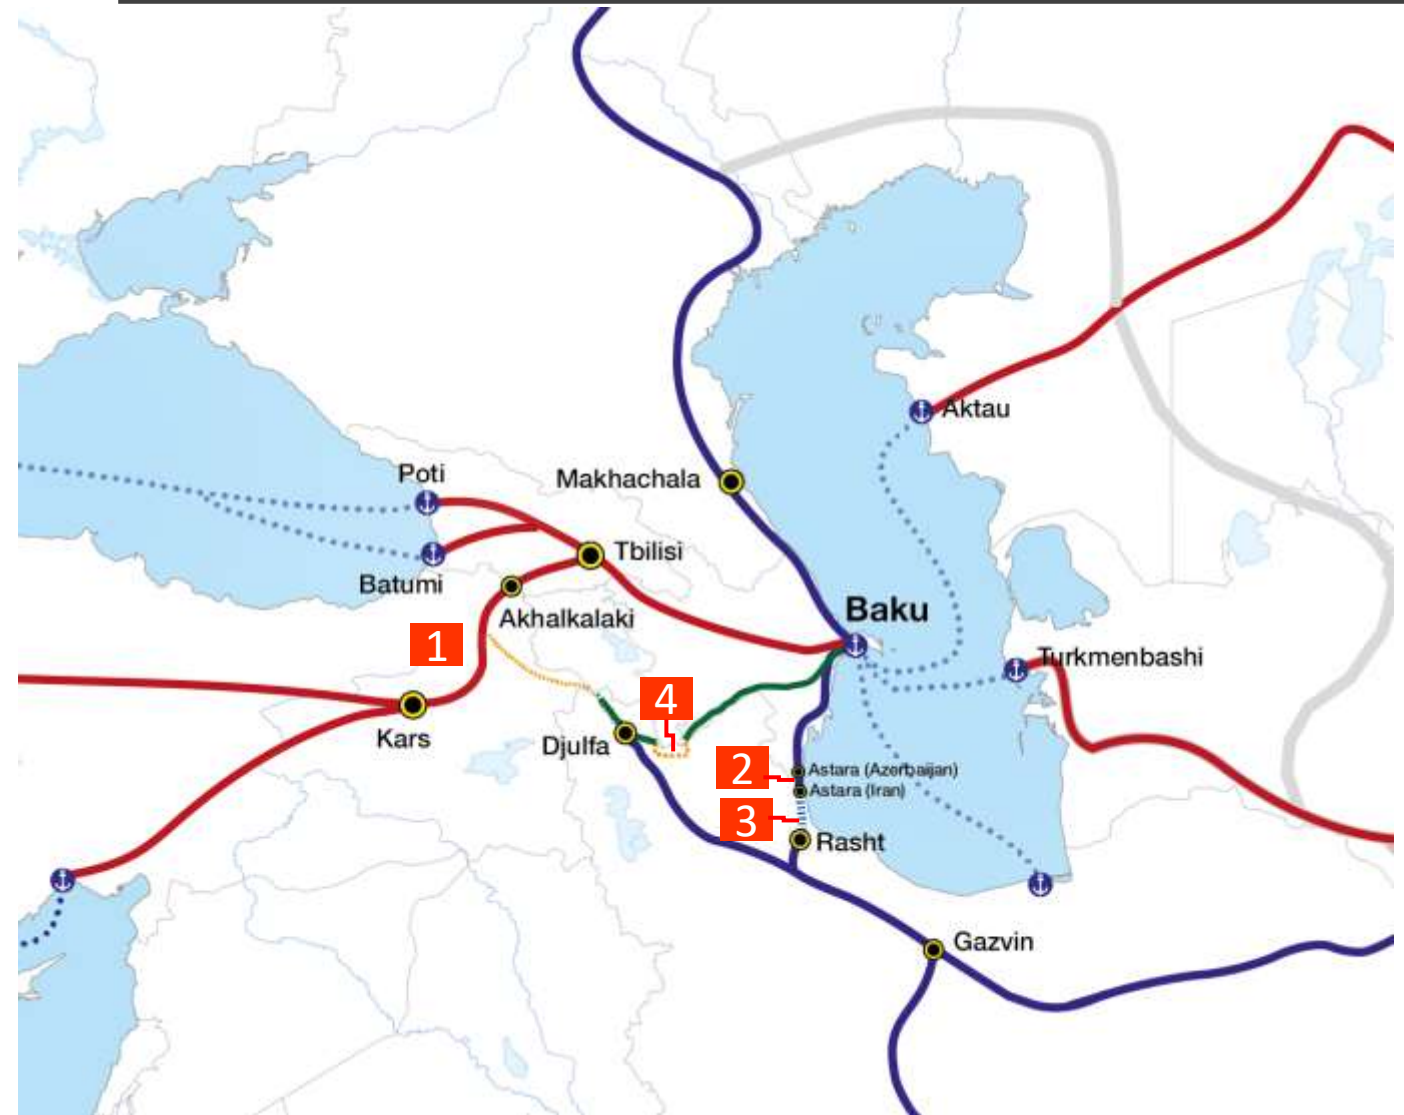

1. Baku Tbilisi-Kars, railway construction completed 30 October 2017

2. Astara (Azerbaijan) and Astara (Iran), railways construction completed 2017. Currently open for temporarily exploitation

Construction of 6 Transshipment and Storage Facilities to be completed by 2022

3. Astara - Resht railways in length of 165 km to be completed by 2025

4. East Zangazur – Iran – Nakhchivan transport connectivity. MoU signed between Azerbaijan and Iran in march 2022.

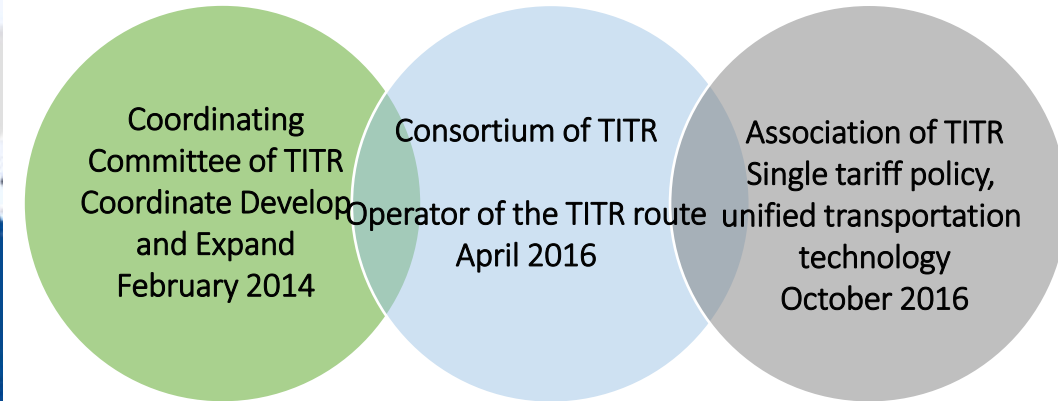

Transit time from the East Coast ports of China

TRANSCASPIAN ROUTE

- ← Lianyungang (China)- Altinkol (Kazakhstan) - Poti (Georgia)- Constanta, Romania → 21 days
- ← Lianyungang (China)- Altinkol (Kazakhstan) – Baku (Azerbaijan) – Istanbul (Turkey) → 16 days
- ← Lianyungang (China)- Altinkol (Kazakhstan) – Baku (Azerbaijan) – Mersin (Turkey)-Trieste (Italy) → 21 days

The result of joint work of the members of Committee, Consortium and Association of TITR

Development of infrastructure (railway, ports, vessels)

Expansion of geography of TITR

Increasing operational efficiency

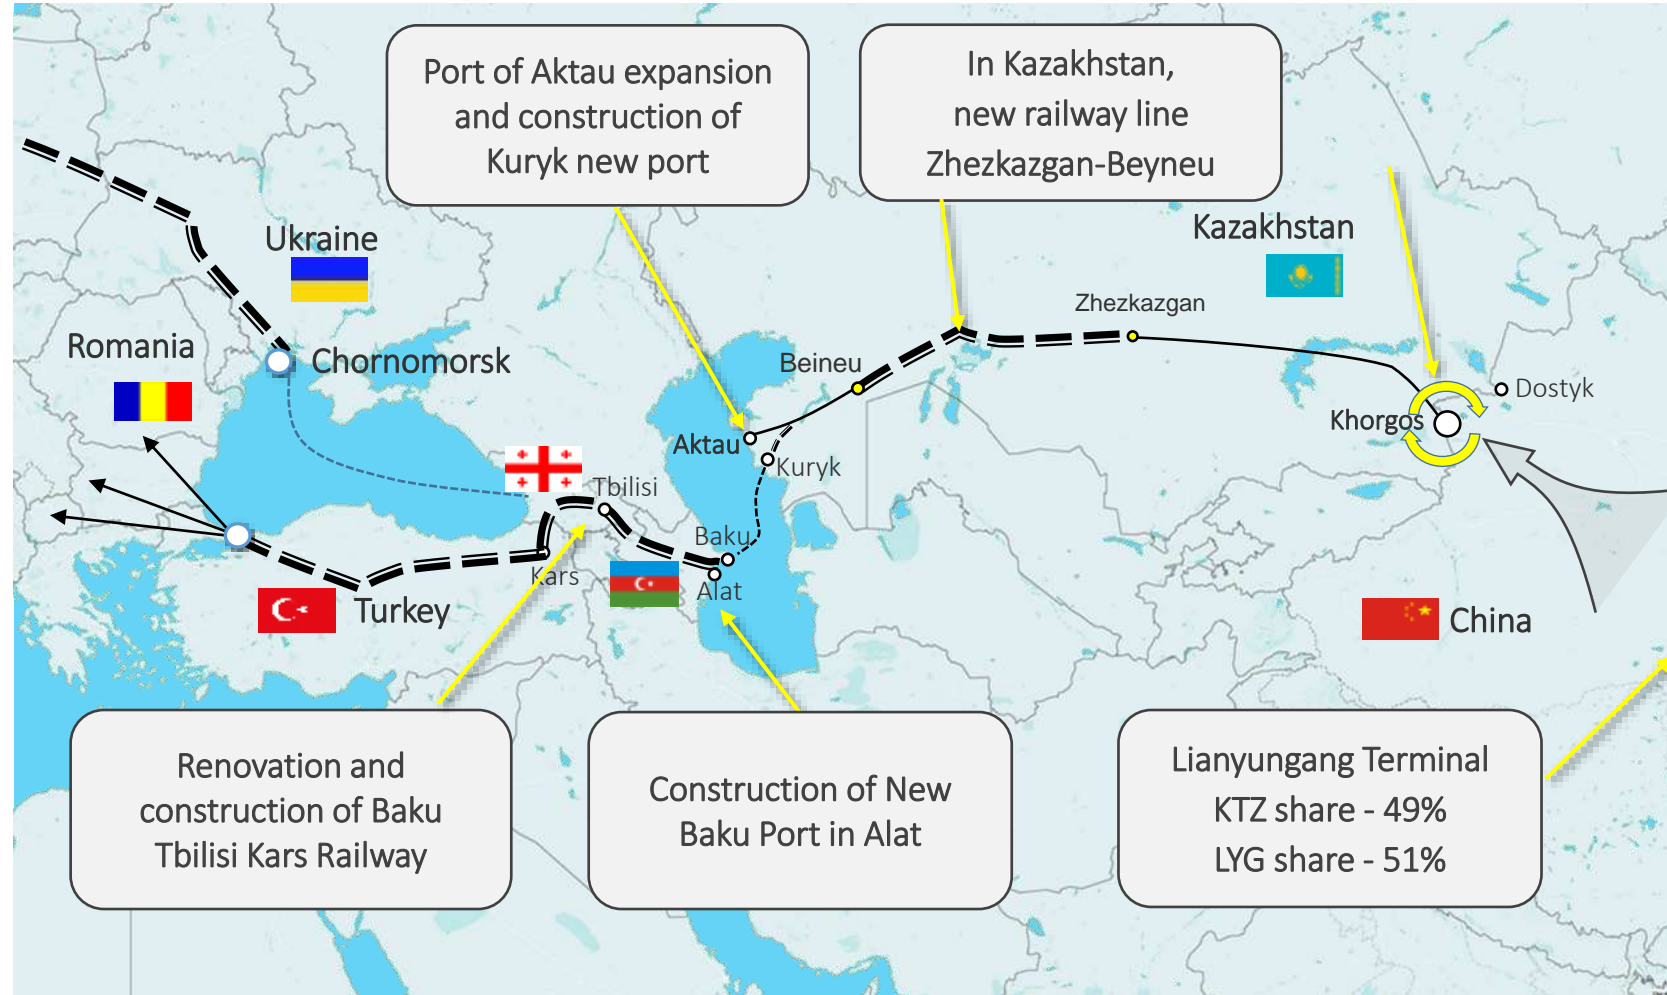

Increase competitiveness of the TITR

Container Block train services

MODERNIZATION OF INFRASTRUCTURE OF TRANSCASPIAN INTERNATIONAL TRANSPORT ROUTE (TITR)

Total capacity of infrastructure along the East West route is more than 25 million tons per year.

Speed for containers block trains is 1000 km per day (excluding transshipment terminals, port handling and sea transport)

Kashgar-Baku transit time

DEEP-SEA ROUTE

Shanghai (China) – Istanbul (Turkey)

35 days

Shanghai (China)– Odessa (Ukraine)

40 days

KASHGAR-BAKU ROUTE

Kashqar (China) - Osh (Kyrgyzstan) - Baku (Azerbaijan) - Poti (Georgia)- Odessa, Ukraine

23 days

Kashqar (China) - Osh (Kyrgyzstan) - Baku (Azerbaijan) - Istanbul (Turkey)

18 days

Kashqar (China) - Osh (Kyrgyzstan) - Baku (Azerbaijan) - Mersin (Turkey)-Triesta (Italy)

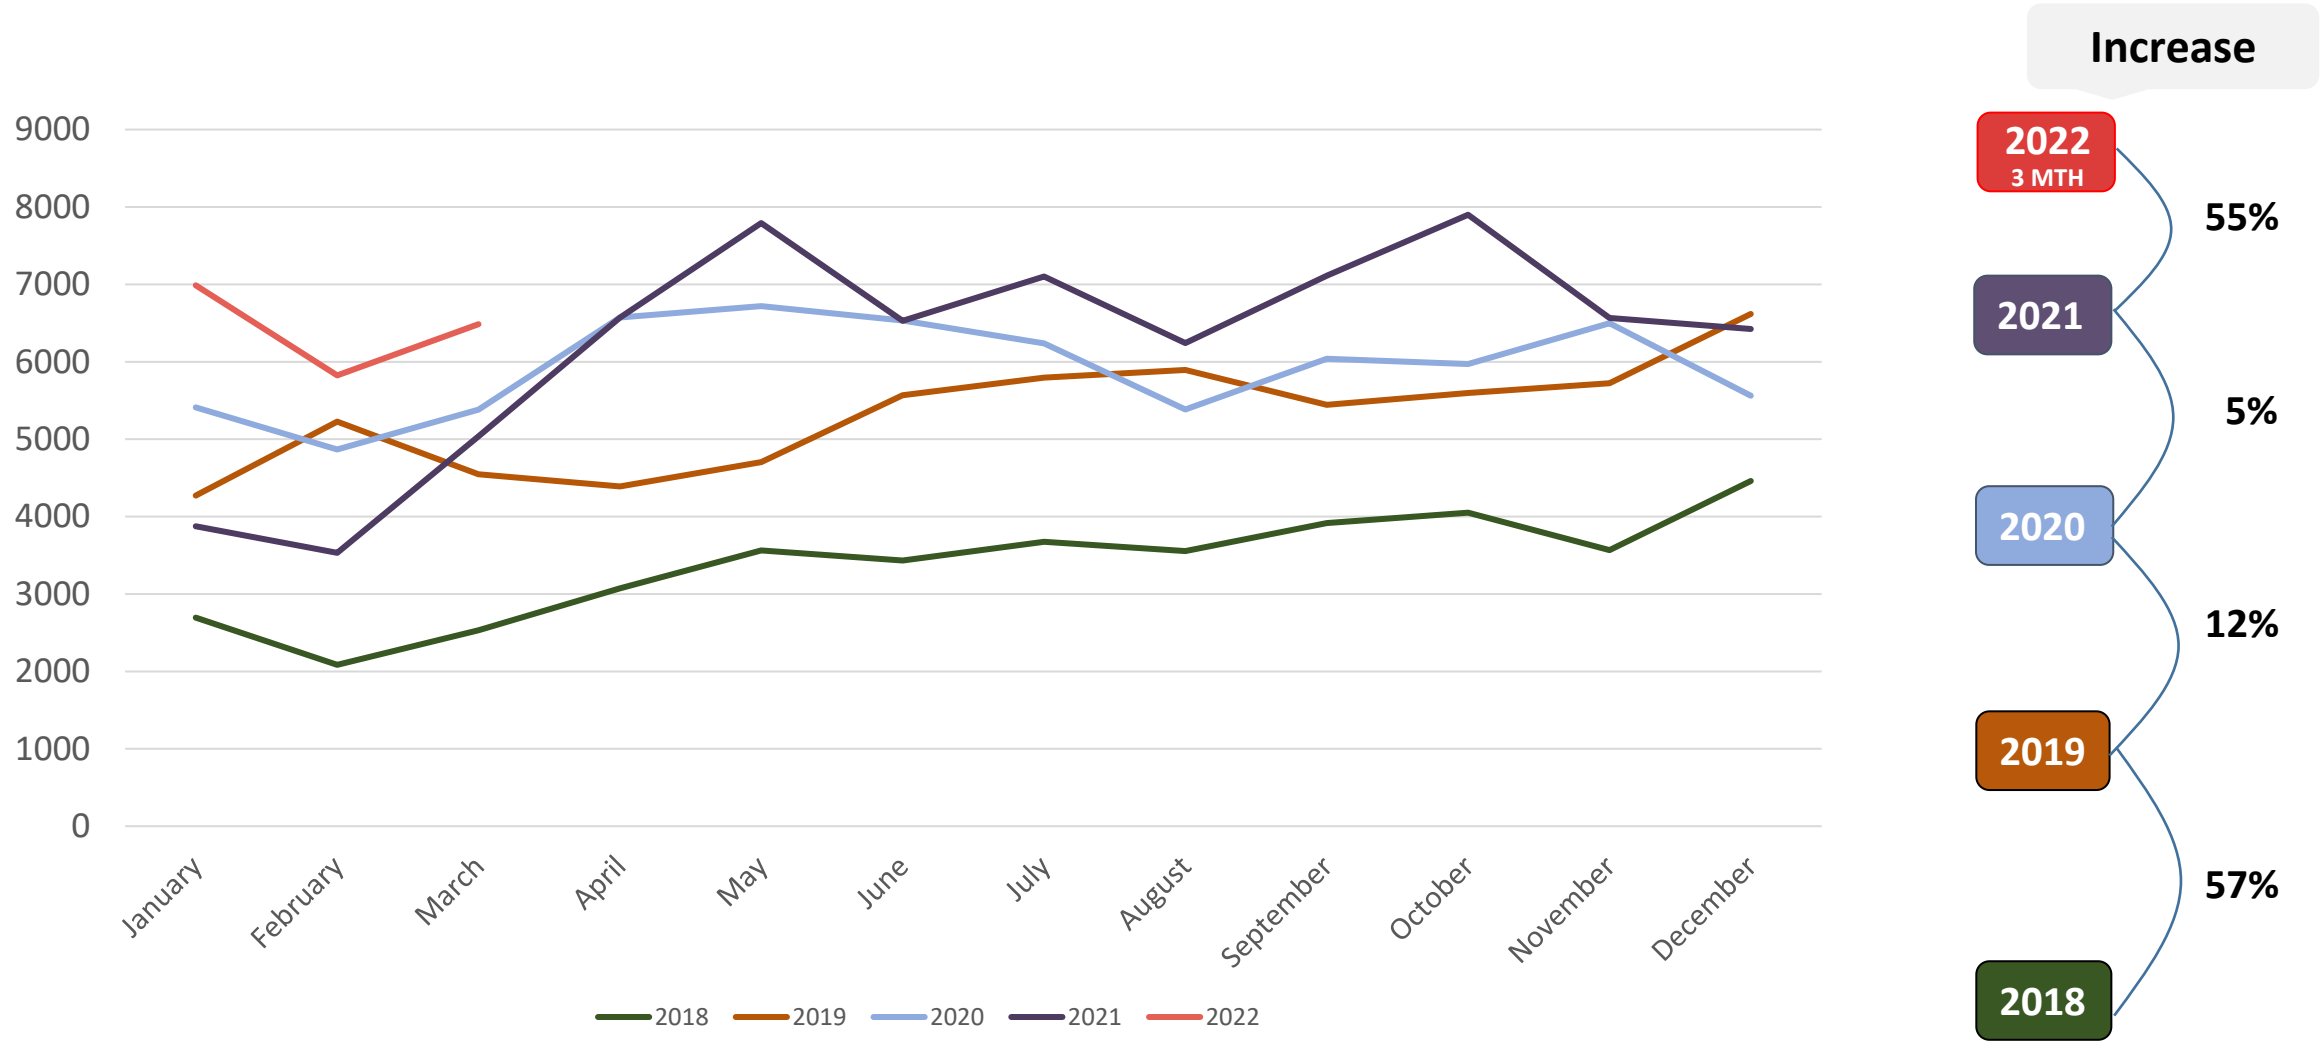

23 days

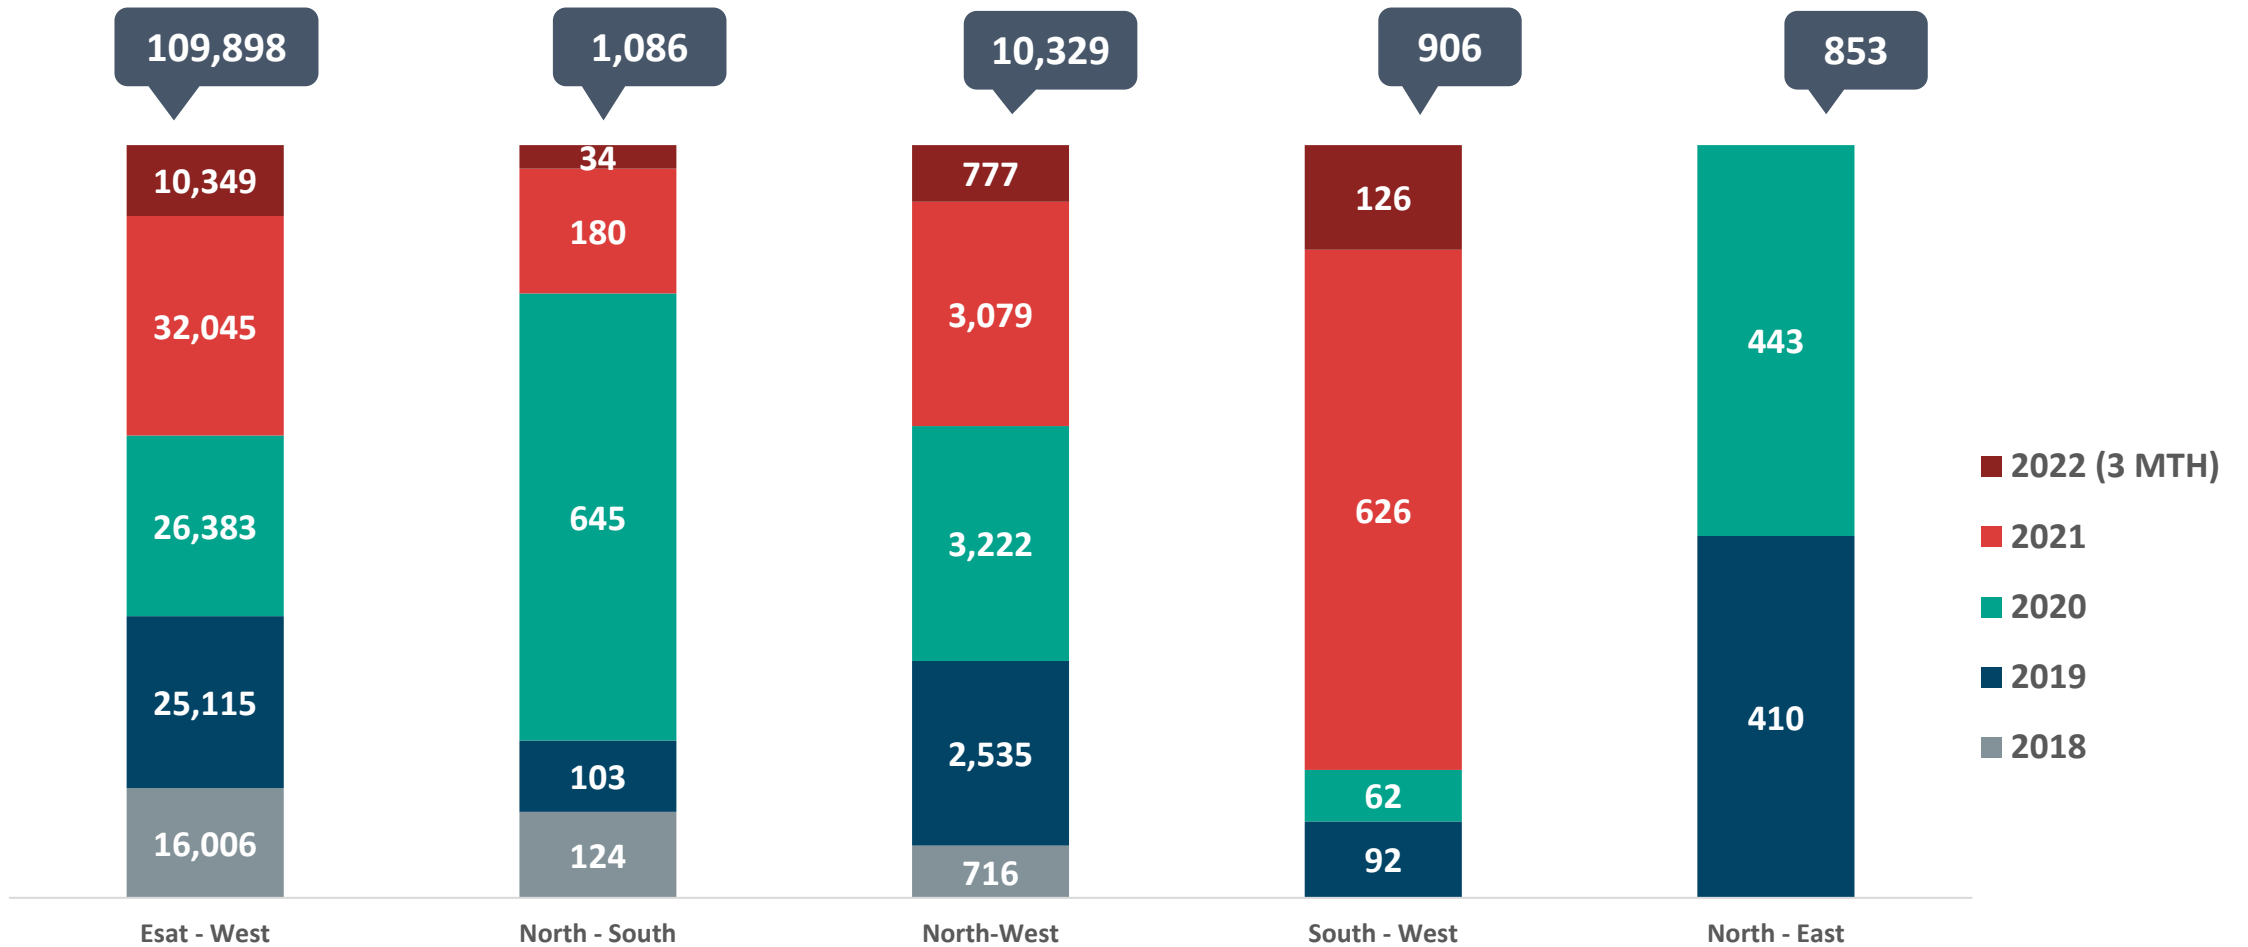

Transit corridors of Azerbaijan Railways

Annual indicators for transit container transportation (2018-2022 TEU)

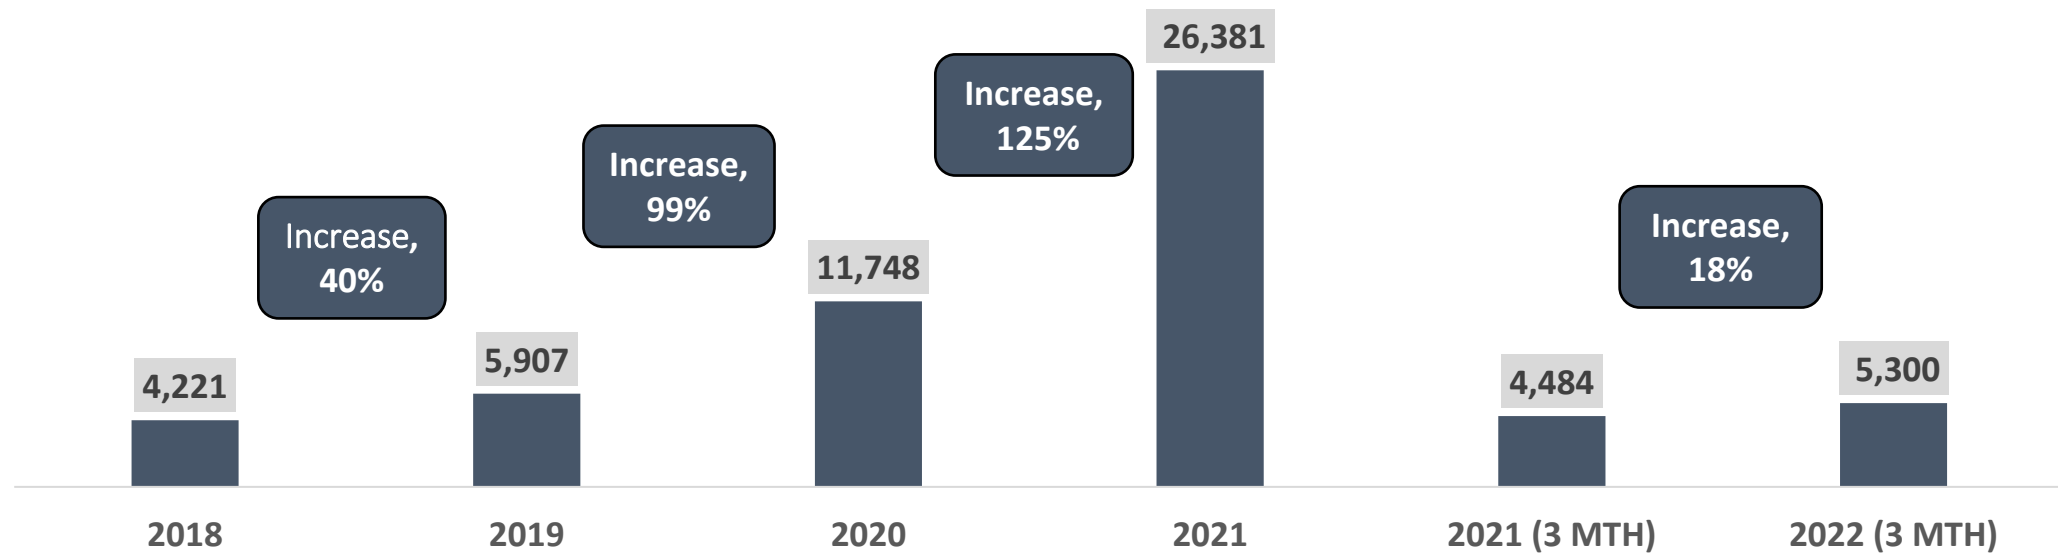

Transit transportation via Azerbaijan Republic (2019-2022 TEU)

Transportation via BTK line (2018 – 2022 TEU)

Year	Import	Export	Transit	Total
2018	858	911	2,452	4,221
2019	711	450	4,746	5,907
2020	1,703	786	9,259	11,748
2021	1,407	1,532	23,442	26,381
2021 (first 3 months)	102	67	4,315	4,484
2022 (first 3 months)	265	256	4,779	5,300
Total	4,944	3,935	44,678	53,557

Transit container transportations via East-West corridor, 2021

Kazakhstan - Turkey
Georgia - Turkmenistan
Turkey - Kazakhstan
