

Regional cooperation programme between ports in the South-West Indian Ocean, Eastern and Southern Africa – INTERREG VI

Seychelles
Maritime Week 2024

Hosted by the Seychelles Ports Authority and Transport Events - 24th - 26th September 2024

Our goals

In a context marked by major changes, **our vision** of regional cooperation aims to:

- **Foster relations between members of the various ports and their ecosystems**
- **Encourage adherence to European standards** i.e. digital, environmental, etc.
- **Contribute to the development of port authorities** through the sharing of knowledge, experience and information
- **Capacity building of port professionals** in the port and logistics sector
- **Encourage the feminization** of port, logistics and maritime professions

Agenda

1. Our partners
2. Our achievements
3. Interreg VI Indian Ocean program features

OUR NETWORK OF PARTNER PORTS IN SUB-SAHARAN AFRICA

□ **Eastern Coastal Members:**

Eritrea, Djibouti, Kenya, Sudan and Tanzania

□ **Southern Coastal members:**

Angola, Mozambique, Namibia and South Africa

□ **Landlocked members with lake ports:**

Burundi, Rwanda, Zambia and Zimbabwe

□ **Indian Ocean islands:**

Madagascar, Mauritius, Reunion, Seychelles and Zanzibar

□ **Countries in partnership with INTERREG VI**

Our achievements during INTERREG V

- ✓ Cooperation programme with the Seychelles Port Authority (SPA)
- ✓ Cooperation programme with Portos e Caminhos de Ferro de Moçambique (CFM) and the France-Mozambique Chamber of Commerce and Industry

INTERREG VI activities

Interreg
Océan Indien

1

Women's Innovation Lab

Think Tank aimed at creating a solid network for reflection and action, with the aim of producing operational deliverables for better inclusion of women in the maritime and port environment. This will be held at each port event.

2

Sharing best practices

Green Port – ecological transition
Smart Port – digital revolution
Development of sustainable cruising
Missions contributing to the smooth running of the Port

3

Developing professional skills

Training and in-company immersion of executive staff in Port Réunion ecosystem (staff from partner countries) and in the ecosystem of partner countries (staff from La Réunion).
Training and immersion in the Port Réunion ecosystem for non executive staff.

Green Port initiatives

Development of Natural Heritage Management Plan
Schéma Directeur du Patrimoine Naturel (SDPN)

SPA/GPMDLR cooperation programme
resulting from mission 4 « Green Port »
Exchange of good practice

Natural Heritage Management plan

- Seychelles Ports Authority (SPA) and Port Réunion are involved in a cooperation programme resulting from mission 4 « Green Port »
- The objective is an exchange of good practice on the Development of a Natural Heritage Management Plan
- Port Réunion began the Natural heritage Management Plan by defining the perimeter of the study, which was carried out in consultation with our consultant firm “ECOMED OI” and the stakeholders in Seychelles. Now we are going to implement this plan.

Waste collection

Management issues

Waste fees

SPA's Expectations

Conducting a pre diagnosis on waste management
