OUR FUTURE PLANS

06

WHY PINDULO?

01 WHO ARE WE

Pindulo Logistics is redefining the logistics landscape as Namibia's gateway to Sub-Saharan Africa.

• **Integrated Excellence:** Offering a full suite of logistics services:

- Mine Shed Management
- Efficient Road Transport
- Strategic Port & Back-of-Port Warehousing
- Accurate Stock Management
- Expert Stevedoring

OUR VALUES

*"Think Impossible,
Think Pindulo"*

Turning **VISION** into **VALUE**

02

TIMELINE

-

STRATEGIC

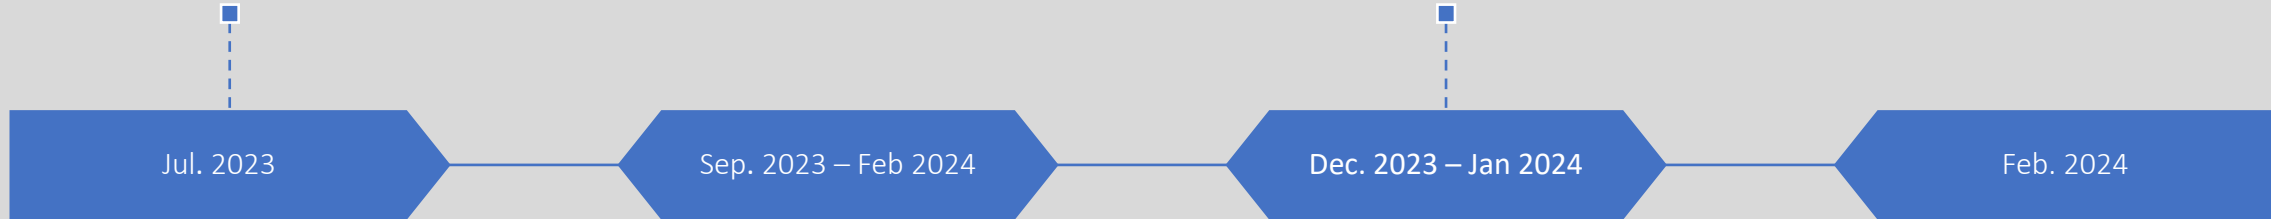

PARTNERSHIPS

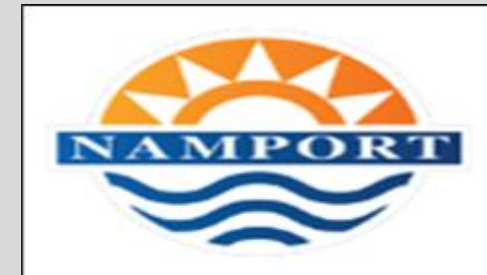

Operational milestone with the commencement of copper concentrate transportation, symbolizing the full activation of our logistics chain and our commitment to operational excellence.

Expansion of our operational capacity with the award of a second Rubbhall and the commencement of an additional tilter fabrication, demonstrating our commitment to meeting the growing logistics demands of the region.

A period marked by continuous improvement and operational milestones, including the delivery of our patented tilter and skips, successful vessel loadings, and Namport's allocation of keyside 1/2/3 to enhance our loading efficiency.

Submission of a building permit application for the expansion of our facilities, a strategic move aligned with our vision for growth and our dedication to being a catalyst for regional logistics excellence.

03

OPERATIONAL EXCELLENCE

At Pindulo, our commitment to operational excellence is reflected through our efficiency, reliability, and innovation across all operational segments.

Safety Performance: To-date, we recorded a zero-harm workplace.

Operational Efficiency: Showcasing our ability to minimize delays and optimize supply chain flow.

- **Total Tons Transported:** 90,000 tons of copper concentrate from the Motheo Mine to the Port of Walvis Bay.
- **Tons Shipped:** 70,000 tons over 7 vessels.
- **Loaded all vessels with average of 26 hours**
- **Average of 400 ton per swing per hour** vs the traditional loading of 113 ton per swing per hour
- **Truck Utilization:** Increase in payload efficiency by 18% with average truck loads on our side tippers now being 39.5 ton.
