Current Facilities

## Port of Beira

Preparing for Growth

Consider

### Container Terminal

- Manage Risk: Port built in 1.5 km² field
- New 400,000-tonne and existing 200,000-tonne
- 2 additional berths (existing and planned)
- New additional handling equipment
- Increased capacity

## Port of Beira

Current Facilities

Consider

Facilities by size

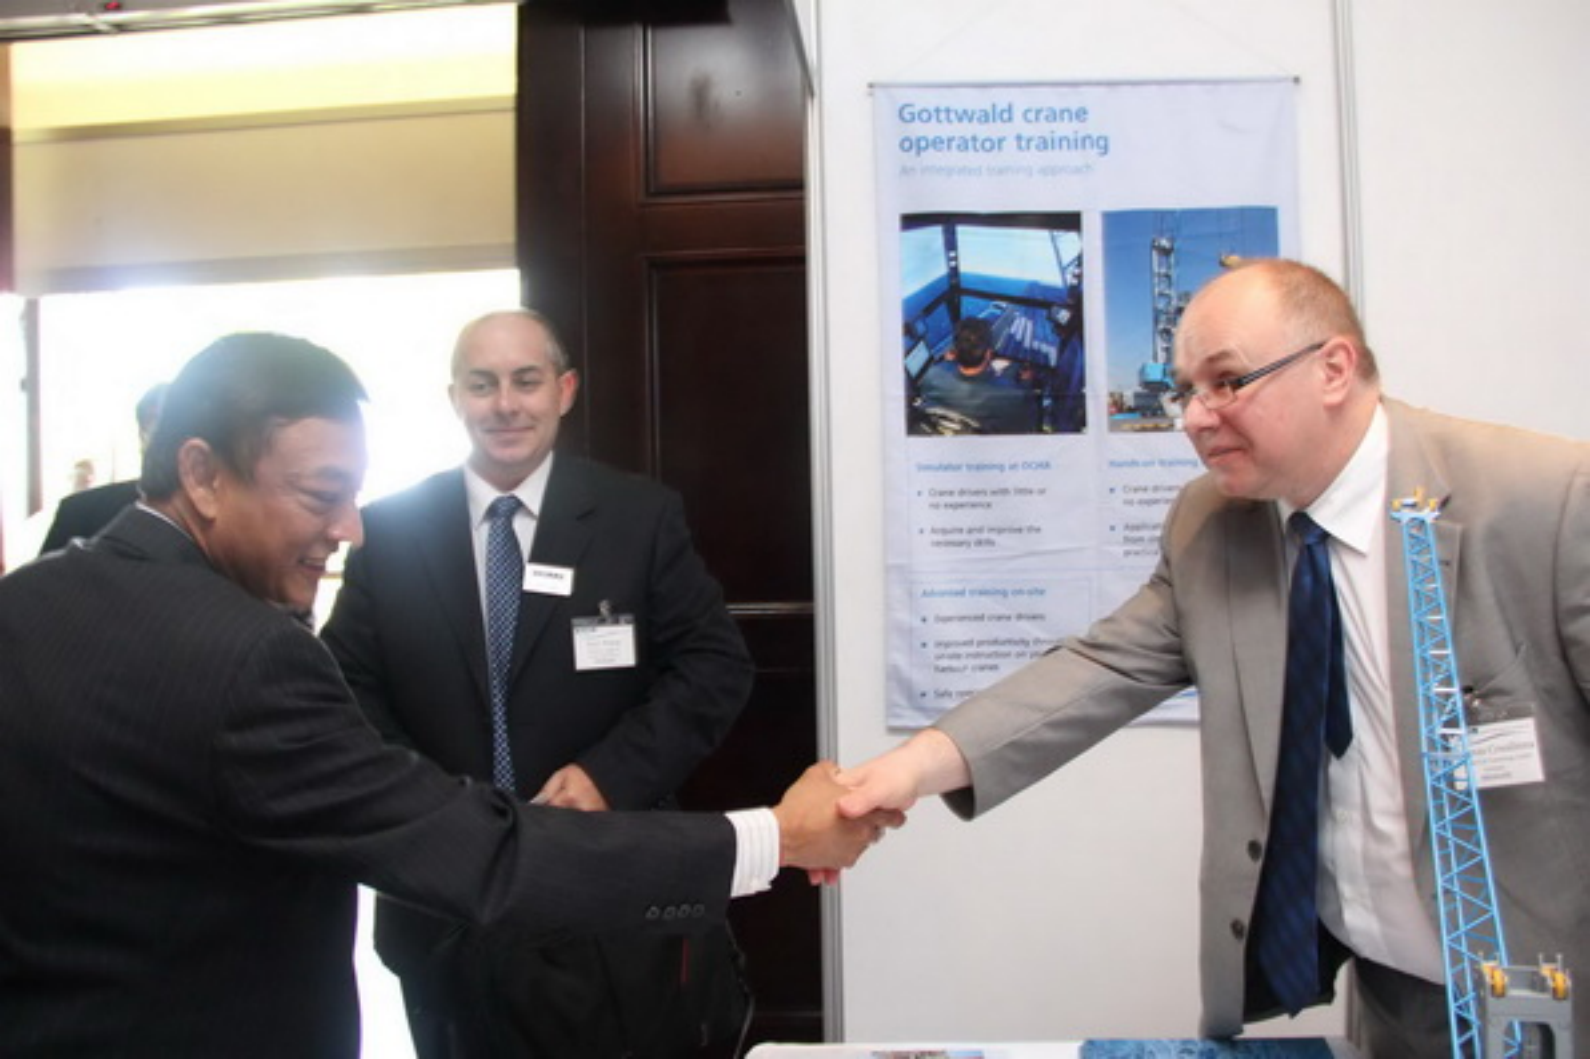

- 1. 400,000-tonne
- 2. 200,000-tonne
- 3. 100,000-tonne
- 4. 50,000-tonne
- 5. 20,000-tonne

# BUILDING GLOBAL TRADE PORTALS

## Gottwald crane operator training

An integrated training approach

### Simulator training at DCR

- Crane drivers with little or no experience
- Acquire and improve the necessary skills

### Advanced training on-site

- Experienced crane drivers
- Improved productivity through direct instruction on your "hot" cranes
- Safe return

### Hands-on training

- Crane drivers with no experience
- Application of practical skills

## Gottwald crane operator training

An integrated training approach

Simulation training in VR

- Crane driven with 100% in VR

- Focuses and improves the necessary skills

Advanced training on site

- Operational crane

- Specialized training

- Safety training
